

# Publisher Mail Merge – Omit Duplicate Text

## Situation:

In a Mail Merge, you are printing labels (door hangers, etc.), two per page, that should have a different name on each label, but instead, the two labels per page display the same person. How do make each label have a different name

## Overview:

Base the publication on a label, then change the Print Setup to print multiple pages per sheet

## Step by Step Instructions:

1.	For your publication type, select a label	<p><i>Labels</i></p> <ul style="list-style-type: none"> <li>Mailing Address • Shipping • Return Ac</li> <li>Binder • Bookplate • Identification</li> </ul>
2.	Attach recipient list, insert fields	
3.	Change the Print Setup	
4.	Click File, select Print Setup...	
5.	Publication and Paper Settings tab  Printing options Click Multiple pages per sheet  OK
