NOTES:

1. Incoming first-year students will be placed appropriately in either EN 100 or EN 150.
2. English majors need to complete the second course at the introductory level in a modern language (112), or one course if the modern-language placement is 200 level or higher. For ancient languages, the second course in a two-semester introductory sequence must be completed. Students should see the English professor listed below if they have any questions.
3. EN185 is a prerequisite to upper-level Professional Writing courses.
4. Students may also take a 200-level English course if their schedule permits.
5. EN 104, EN 101, and EN 180 cannot be counted toward the English major, although each does satisfy a requirement for Core, and EN 180 can count toward a Creative Writing minor.

Students interested in English Professional Writing should contact Professor David Downing, Wenger 100, 361-1381, downindc@etown.edu.
