Spring Semester

- EC102 Principles of Micro OR
EC101 Principles of Macro
- AC101 Intro to Accounting
- BA197 Intro to Intl Business
- CHN112 OR
FR, GR, JA or SP212

NOTES:

1. Specific entry-level course in language will be determined after results of language placement test are received. Students interested in completing a Spanish minor should speak with the Modern Language Department regarding the specific Spanish minor language level requirements.
2. Refrain from filling the Western Cultural Heritage, Non-Western Cultural Heritage or Creative Expression requirements of the Core before going abroad. This suggestion is because an International Business major could take some of the courses in these Core Areas during the study-abroad period.
3. If a student has an interest in accounting, he or she should be enrolled in the beginning accounting course (AC 101) in the freshman year.
4. Normally, by the junior year, a major in International Business chooses one of the following as an area of concentration: Accounting, Finance, Economics, Management, or Marketing.
5. International Students are not required to take foreign language courses for their IB major. However, they should consult with the Director of IB in their freshman year to discuss their course requirements.

Students interested in International Business as a major should contact Dr. Hossein Varamini, Hoover Center, Room 223, ext. 1278, e-mail: varaminih@etown.edu

For more complete information about the IB requirements, please see:
