

Research Humanities Alumni Regarding Their Accomplishments and using that Data for Web and Print Materials

This project brings attention to Elizabethtown College alumni in the Humanities and select Social Sciences that have had successes. The goal is to identify, research and highlight alumni from the English, History, PPLS (Politics, Philosophy, Legal Studies), Modern Languages, Religious Studies, Sociology/Anthropology and Fine and Performing Arts departments. This research will be used to create documentation that can be accessed by a variety of departments on campus such as marketing. It will be accomplished by first receiving faculty input from each of the chosen departments in regards to successful alumni, next those recommended alumni will be researched and finally a summation of this research will be made available.
