## Visiting Assistant Professor of Biology (3 year appointment (2018-2021))

The Department of Biology at Elizabethtown College invites applications for a three-year Visiting Assistant Professor of Biology position to begin August 2018.

Qualified applicants will be committed to dynamic and innovative teaching, to maintaining a research program involving undergraduate students, and to student advising. Teaching expectations are twelve contact hours per week including laboratories. The successful candidate will teach courses in general physiology, human anatomy and physiology, comparative mammalian anatomy, first semester majors' biology, and an upper level elective of their choice.

A Ph.D. in a biological field and teaching experience are required.

The research area of specialization is open; however applicants whose research includes a bioinformatics or a strong quantitative component are encouraged to apply. We are especially interested in applicants with diverse backgrounds and experiences and in applicants with a commitment to creating inclusive learning environments.

Located in southeastern Pennsylvania, Elizabethtown College offers its 1,900 students more than 47 academic programs in the liberal arts, sciences and professional studies. Driven by its commitment to "Educate for Service," Elizabethtown centers learning in strong relationships, links classroom instruction with experiential learning, emphasizes international and cross-cultural perspectives and nurtures the capacity for lives of purpose and leadership as global citizens.
