College Policy

Elizabethtown College is committed to providing a learning, working and living environment free of discrimination and sexual misconduct, as well as promoting personal integrity, civility and mutual respect. Sex discrimination violates an individual's fundamental rights and dignity. Sex discrimination includes all forms of sexual harassment, sexual misconduct, sexual violence, sexual assault, domestic violence, dating violence, and stalking by students, employees, or third parties against employees, students or third parties.

Elizabethtown College takes seriously violations of this policy and will investigate allegations of these violations to the fullest extent possible. Any person found in violation of the policy will be subject to discipline, up to and including termination if they are an employee, and or expulsion if they are a student.

Making a Report

All reports, including any anonymous report, will be taken seriously in order to provide appropriate medical and counseling support and to protect others in our community from further harassment or violence. The College will uphold core institutional value of human dignity, respect, and social justice as it responds to each complaint. All parties involved can expect to be treated fairly and respectfully. Please note that anonymous reports significantly limit the College's ability to investigate and appropriately address allegations of misconduct.
