Best Apps for Students

Ever wondered if there's an app for practicing your language class? How about a countdown to tests in each course? Perhaps you need an app that blocks social media like Facebook and Twitter while you're studying? Well, have no fear! The ITS technical writer has created the Top 10 Apps for Etown Students. Click below to find out what they are and how you can use them to improve your years here at Etown.

Student Club Registration

Chances are you're a member of a club here at Etown, but did you know that you can now register clubs online? Existing and new clubs can log in to JayWeb and register for the school year until September 22nd. This process is required and can help speed things along to create a new club or update contact information and reregistration for an existing club. In addition, existing clubs will maintain access to email and other IT resources as long as the contact information is kept up-to-date. Find out how to register and more by clicking the link below.

Spotlight: Amanda Porter

Each issue of IT Matters will feature a different student worker as a way of highlighting the many talented workers in the department and thanking them for helping make the ITS Department great.

This issue's featured ITS student worker is Amanda Porter. The Information Systems major, Business Administration minor is in her second year here at Etown (Go Blue Jays!) and hails from Audubon, New Jersey. When not cheering for the Los Angeles Sparks, Amanda spends her time crocheting, playing basketball, and skateboarding. This is her first year working for the ITS department and she enjoys being able to solve problems when helping other students. After graduating from Etown, she plans to work for a hospital in information security. To find out more about this talented ITS Staff member, watch her Spotlight Video.
Wireless Printers

Did you bring a wireless printer or router to campus? Wireless printers and routers are not allowed on campus because they interfere with the Wi-Fi. So make sure to use that USB printer cable for your printer to print and leave the router at home. Find out what happens with the wireless network when you bring routers and wireless printers on campus by clicking below.

Etiquette in Email

Do I call my professor by their first or last name? Do I include "Dr." before it? Is it ever okay to use LOL? What about smileys? Navigating the world of online etiquette, also known as netiquette, can be tricky whether you're a new student or senior. Brush up on how to talk to professors and staff members online by clicking the Read More button.
