Petition for Early Participation in Commencement Requested by February 15th to Registration & Records Office

Undergraduate Students: to be eligible for this privilege, students must have at least a 2.0 grade point average in both their major and overall at the time of the ceremony and have no more than 8 credit hours of course work remaining, regardless of total number of credits completed.

Graduate Students: to be eligible for early participation status, must have a 3.00 grade point average at the time of the ceremony and must be enrolled in all remaining graduate level courses in the summer in which early participant status is granted. The number of outstanding credits may not exceed 6 credits, regardless of total number of credits completed.

Please refer to the Online Catalog for a full explanation of the Early Participation Policy. Approval is conditional; it assumes you will successfully complete all course work currently on your schedule. If you drop a course or do not successfully complete a course, then your status as an early participant can change.
