(Source: World Health Organization Global Health Observatory, Tuberculosis Incidence 2012)

4. Have you had frequent or prolonged visits** to one or more of the countries listed above? ___Yes ___No
   (If yes, please place a ***check*** next to countries that apply, above)
5. Have you been a resident and/or employee of a high-risk congregate setting (for example: correctional facility, long -term care facility or homeless shelter)? ___Yes ___No
6. Have you been a volunteer or health care worker who served clients who are at increased risk of active Tuberculosis disease? ___Yes ___No
7. Have you ever been a member of any of the following groups that may have an increased incidence of latent Tuberculosis infection or active TB disease: Medically underserved, low income, or those abusing drugs or alcohol? ___Yes ___No

The significance of the travel exposure should be discussed with a health care provider and evaluated.

- **If the answer is YES to any of the above questions,** Elizabethtown College requires that you receive TB testing as soon as possible but at least 6 months prior to the start of the semester. See next page……
- **If the answer to all of the above questions is NO**, no TB testing is needed or necessary.

ATTENTION ALL EDUCATION MAJORS:

NOTE: All students majoring in Education must receive a TB skin test in order to participate in observation/ student teaching in the schools.

Student Last Name **First Name** **Middle Initial** **Date of Birth**

Part II: Clinical Assessment by Health Care Provider

Please verify the information in Part I. Persons answering "**YES**" to any of the questions in Part I need to have a PPD/ Mantoux TB skin test or Interferon Gamma Release Assay (IGRA) blood test, unless a previous positive test has been documented.

Does student have a history of a **positive** PPD / Mantoux skin test or IGRA blood test? ___Yes ___No

- If **Yes,** a chest x-ray is required, please attach report.

History of BCG vaccination? (History of BCG is not a contraindication to TB testing) ___ Yes ___No

Does student have signs or symptoms of active pulmonary Tuberculosis? (Cough > 3 weeks, with or without blood, chest pain, unexplained weight loss, fevers, night sweats, loss of appetite). ___Yes ___No

1. **Tuberculin Skin Test (TST)/ PPD Mantoux Skin Test**

(TST result should be recorded in millimeters (mm) of induration, transverse diameter)

Date Placed: ___/___/___ Date Read: ___/___/___
MM DD YY MM DD YY
Result _____mm of induration Interpretation: positive____ negative____

Interpretation guidelines:
>5mm is positive: recent close contacts of an individual with infectious TB, persons with fibrotic changes on a prior chest xray, organ transplant recipients or other immunosuppressed persons. HIV infected persons.
>10mm is positive: recent arrivals to the US (< 5 yrs) from high prevalence areas or who resided in one for a significant amount of time, injection drug users, mycobacterial lab personnel, residents, employees or volunteers in high risk congregate settings. Persons with medical conditions that increase the risk of progression to TB disease: silicosis, diabetes mellitus, chronic renal failure, certain types of cancer, gastrectomy or jejunoileal bypass and weight loss of at least 10% below ideal body weight.
>15 mm is positive: persons with no known risk factors for TB.

OR

2. **Interferon Gamma Release Assay (IGRA)**

Date obtained: ___/___/___
MM DD YY
Result: ___negative ___positive ___indeterminate

- **Please attach copy of lab test results.**

Chest x-ray: (Required only if TST or IGRA is positive)

Date of Chest x-ray: ___/___/___ Result: ___Normal ___Abnormal
MM DD YY

- **Please attach a copy of x-ray report.**

Immunization Record: Antibody titers are acceptable/ please attach copy of lab report

To be completed and signed by your health care provider.

1. **MMR (Measles, Mumps, Rubella) *REQUIRED* (Two doses required)**

   - **Dose 1 given at age 12 months or later: #1____/____/_____**
   - **Dose 2 given at least 28 days after the first dose: #2 ____/____/____**

2. **Tetanus/Diphtheria/Pertussis: (1 dose *REQUIRED of Tdap) within the past 10 years***

   - **Tdap __/___/___ Last Td___/___/___**

3. **Hepatitis B *REQUIRED* #1___/___/___ #2___/___/___ #3___/___/____**
4. **Hepatitis A *(Optional)* #1___/___/___ #2___/___/___**

5. **Polio: List completion date: ___/____/____**

6. **Varicella (Chickenpox) *REQUIRED* 2 doses or History of Disease**

   - **Dose #1___/___/___**
   - **Dose #2___/___/___**
   - **Or History of Disease / Date: ___/____/____**

7. **Human Papilloma Virus Vaccine: (Optional)**
   - **Dose #1___/___/___ Dose #2___/___/___ Dose #3___/___/___**

8. **Meningitis Vaccine (Conjugate Vaccine/MCV): REQUIRED / SEE BOX BELOW:**

MENINGITIS VACCINE: REQUIRED by Pennsylvania State Law

Date of Meningitis (Conjugate/ MCV) Vaccination: ____/____/____

Note: If 1st dose of Meningitis vaccine was given before age 16 years old, a booster dose is required. 2nd dose: ____/____/____

OR / Waiver: I have had the opportunity to review the information on the Meningitis vaccine and on Meningococcal disease. I am fully aware of the risks associated with this disease, the availability and effectiveness of the vaccine, but for religious or other reasons, I decline the vaccine for Meningitis at this time.

Signature_____**Date**_____

9. **Meningitis B Vaccine: (Recommended, please discuss with your health provider)**
   - **Trumemba: Dose #1___/___/___ Dose #2___/___/___**
   - **Bexsero : Dose #1___/___/___ Dose#2___/___/___**
