

Elizabethtown College

Re-Entry Requirements after a Medical Withdrawal

Treatment Expectations:

During a Medical Withdrawal, the College expects the student to participate in professional health care treatment with a licensed medical or mental health provider as the primary method of resolving or managing the health concerns that led to the Medical Withdrawal.

Re-Entry Requirements:

Consulting with the Director of Counseling & Health Needs is necessary as part of the readmission process following a Medical Withdrawal. The student must have the licensed treatment provider submit a **Medical Withdrawal Re-Entry Documentation Form**, or a comprehensive written report including a recommendation as to the appropriateness of the student's return, to the Director of Counseling & Health Needs. The form must be received by the Director of Counseling & Health Needs at least one week prior to the student having a scheduled meeting with the Director (call 717-361-1405 to schedule). The purpose of the meeting is to discuss the student's readiness to return and identify support resources to facilitate the student's successful return to the College. The College may deny re-entry if the individualized assessment determines that re-entry poses a direct threat to the safety of individuals in the campus community.

Upon re-entry, the student must complete a readmission form through the Registration & Records Office no later than August 15 for readmission in the Fall Semester and December 15 for readmission in the Spring Semester. This completed form is required for students to be eligible to register for classes. Contact the Registration & Records Office at 717-361-1409 to obtain the required readmission form.

Contact the Resident Life Office, at 717-361-1197 to inquire about the housing registration process. Housing is guaranteed for residential students upon reentry within the two semesters following the medical withdrawal.

If you would like to request residential or academic accommodations when you return to campus, please contact Disability Services at 717-361-1227. It may be necessary to provide documentation from your health care provider in order to support requests for accommodations.

Appeals:

A decision to deny re-entry may be appealed by the student to the Senior Vice President for Academic Affairs & Dean of Faculty. The appeal will be reviewed according to the Policies and Procedures for Leave of Absence and Withdrawals described in the Student Handbook.
