

Elizabethtown College
Post-Emergency Room Visit or Inpatient Hospitalization
Return to Campus Documentation

The post-ER visit or post-hospitalization process is designed to determine if a student can function safely and independently as well as manage academic and social responsibilities in the college environment, and to assess if the student is connected with appropriate support resources.

A student who has been hospitalized, evaluated or treated at the hospital as a result of a health crisis, and wants to return to campus, is expected to:

- 1) Give permission to the treating medical provider and/or hospital to complete and submit this form and relevant documentation promptly to the Office of Student Wellness.
- 2) Submit the student's "After Visit" form (or "Discharge Summary") provided by the hospital to the Office of Student Wellness.
- 3) Meet with the Director of Student Wellness, and bring the forms if they have not already been submitted.

Student's Name _____

Date of Admission/Treatment _____ Date of Discharge _____ Treatment Facility _____

1. Do you assess the student as currently, or in the reasonably foreseeable future, being a safety threat to others? Yes No

Comment: _____
