The College Store is always working to lower textbook prices to make them more affordable. We have partnered with VERBA for sourcing of some of our books in an effort to offer substantial savings on a number of our titles.

We have also created a transparent shopping environment with the "Price Comparison Shopping" tool on our website. This tool will help you find the best textbook options available in the market. When you go to our website, you will see our price right alongside our competitors such as Amazon, Half.com and Abe's, to name a few. Prices of new and used textbooks, rentals and e-book options - all listed in one place. So, if we don't offer the best price for your book, you will have the ability to order that book from the vendor of your choice, making us your one-stop, online shopping destination for all your textbook needs. You can choose which textbook option works best for you, add it to your cart and check out from one or multiple vendors right from our site.

We feel transparency is the best policy and we will do our best to offer you the best value for your money. We know we won't always be the least expensive option, **but there are many other benefits when you choose to purchase your books from the College Store.** At the College Store, we offer convenience - everything you need is in one place, friendly, knowledgeable staff, and we always guarantee the books we sell. Plus, we have other great E-Town stuff no one else can offer!

Before buying your books from a competitor, please read the textbook [disclaimer](#).
