ELIZABETHTOWN HISTORY: CAMPUS AND COMMUNITY

Anderson's Ferry Grounds & Old Town of Waterford
West Market Street Formerly High Street
Marietta, Pennsylvania
The Homes of Israel Goodman (1824-1903)

Kylie N. Holl

17 April 2025

Professor Jean-Paul Benowitz

Teaching Assistant Eric J. Schubert

Elizabethtown College

Eby, Haur, Leese, Albano House
256 West Market Street Marietta, Pennsylvania 17547 (north)

Abstract:

Built in 1871 in the Federal style (1760-1820) and the Shingle style (1880-1900) by Samuel Eby (1838-1904) Mennonite school teacher, land surveyor, and manager of the Farmer's Bank of Elizabethtown. Barbara Hauer (1827-1908), proprietor of Hauer House, currently Shenk's Tavern owned this home. This was the home of U. S. Airforce veteran, local locksmith, Richard K. and Corene M. Floyd. Second World War Army Lieutenant of the Seventeenth Armored Engineer Battalion Second Division, Angelo A. Albano (1917-1974) lived in this home with his wife Army Lieutenant Corable L. Albano (1916-1977). Angelo Albano was a pharmacist and proprietor of Albano's Drugstore in Marietta, he was president of the Donegal School District school board. U. S. Airforce Veteran Brian T. Reiter (1949-2023) and his wife Pearl Reiter. A graduate of Newberry College, South Carolina, Brian Reiter worked for the Commonwealth of Pennsylvania in the Department of Labor and Industry and the Department of Community and Economic Development.

Prologue:

This spring semester 2025 the focus of these honors guided research and writing reports are historically significant properties located on West Market Street, previously named High Street, on the former Anderson Ferry Grounds and the old Town of Waterford, many of the homes were built or remodeled by the local builder and publisher Israel Goodman (1824-1903). Goodman was a land surveyor, builder, architect, and watchman for the Exchange Bank who served on the Marietta Borough Council as councilman, triennial assessor, and borough regulator. He was the publisher of six local newspapers *The Ant*, *Argus*, *Marietta*, *The Register*, *The Marietta Orb*, and *The Farmers' and Mechanics' Journal*.

As early as 8,000 BC Paleo-Indian settlements, the Susquehannocks flourished along the Susquehanna River with agricultural production and operating complex trade routes expanding throughout the continent. Every river valley and every tributary of the Swatara, Conoy, Chickies, Conestoga, Pequea, and Octorara Creeks has considerable evidence of human habitation in Lancaster County, Pennsylvania prior to European contact.¹

In 1616 Etienne Brule (1592-1633) a French expert in the Algonquin language, who lived among the Susquehanna tribe in western New York, traveled down the Susquehanna River into the Chesapeake Bay. Along the way, Brule explored the tributaries of the Susquehanna River in Lancaster County and encountered the Susquehannock tribes living along the Susquehanna River.²

In 1629 Etienne Brule partnered with the British fur trader Sir David Kirke (1597-1654) establishing trade relations between the Europeans and Susquehannock tribes. By 1680-1690 no Susquehannock villages existed in Lancaster or York Counties. There was a migration to New York to settle among the Iroquois and Seneca and a movement south to Maryland.³

In 1681 British King Charles, II (1630-1685) granted a land charter to Quaker leader William Penn (1644-1718) to repay a debt the King owed to Admiral William Penn (1621-1670). King Charles named it Pennsylvania, meaning Penn's Woods: Penn and Sylvania from the Latin *silva* which translates forest or woods. There were no Susquehannocks living in this region by the time William Penn acquired the land from King Charles, II (1630-1685).⁴

In 1701 William Penn (1644-1718) gave a patent of 3,000 acres of land along the Susquehanna River to George Beale (British). By 1703 Consumed by debt, William Penn (1644-1718) charged his land agent James Logan (1674-1751) to send him in London "bear and buck skins for they [the creditors] bear an advance" and "urge the Pennsylvania assembly to establish a propriety monopoly in the Indian trade."⁵

In 1708 James Logan invited the French Expert Indian language interpreter Peter Bezaillion (1661-1742) to establish a fur trading post where the Conoy Creek meets the Susquehanna River in Bainbridge, Pennsylvania north 7.5 miles north of Marietta. By 1719 Bezaillion invited the Piscataway tribe to move from Maryland to Conoy Town. They assumed the name Canoise or corn shellers and were called the Conoy Indians.⁶

In 1717 Peter Logan did not only invite French and Indian fur traders to settle between the Conoy and Conewago Creeks along the Susquehanna River, he also sold land to the highest bidders among the Swiss-German (mostly Mennonite) Palatine farmers arriving in Pennsylvania in 1717. Simultaneously there was an influx of Ulster Scots or Scots-Irish settlers. William Penn's sons John (1700-1746), Richard (1706-1771), and Thomas (1702-1775) inherited a great deal of debt when their father died in 1718. The Penn brothers became alienated from Quaker beliefs and did not subscribe to their father's ideals for Pennsylvania.⁷

In 1717 one year before his death, William Penn reserved 16,000 acres in Lancaster County for various tribes as a reserved hunting ground. This promise by William Penn would not be kept by his sons. According to Mennonite historian the Reverend John L. Ruth, Mennonite settlers in Lancaster County anxiously paid up to four times more than the price the Penn brothers were asking for acres. Meanwhile the Scots-Irish settlers encouraged

to move here by James Logan started living on the land without title. The obvious defense of one's claim to property was to construct buildings and begin to improve the land, even before it was legally acquired.⁸

In 1719 Robert Wilkins, Scotch-Irish (Ulster Scots; Anglo-Irish Presbyterians), Indian Trader, acquired 300 acres along the Susquehanna River north of Chickies Creek. In 1719 George Stewart, Scotch-Irish, was sold a tract of land east of the Robert Wilkins tract. In 1727 Robert Wilkins sold the tract of Penn land to Scotch-Irish, The Reverend James Anderson, clergy at the Donegal Presbyterian Church (1732) in Mount Joy, in East Donegal Township. Son James Anderson operated the ferry and built the Accomac Inn.⁹

In 1733 George Stewart's son and daughter-in-law, John and Ann Stewart, inherited and sold the James Anderson tract to David Cook. This tract of land was given to his son David Cook whose son, David Cook, laid out the town of New Haven. Additional acres of the Stewart tract were given to David Cook's son James.¹⁰

Peter Bezaillon built Old Peter's Road, as it is still known in parts of Lancaster County, to facilitate French and Indian fur trading linking Philadelphia to Bainbridge (1719). Bezaillon who, in partnership with the British, challenged France's control over the territory between the Appalachian Mountains and the Mississippi River, a struggle which helped precipitate the French and Indian War. The French found the Algonquin tribes their allies, while the Iroquois sided with the British. Raids of British colonists occurred on both sides.¹¹

By 1743, The Piscataway tribes had moved away from Bainbridge, migrating north along the Susquehanna River settling in Shamokin. British victories in Quebec (1759) and Montreal (1760) led to France surrendering all of New France to the British. The British took over all French forts on the frontier and became the new authoritarian power for the tribes in these regions during The French and Indian War (1755-1763).¹²

Between 1775-1783 Marietta played an important role in the American Revolution manufacturing iron and lumber, producing agricultural goods, distilling whiskey, and ferry transportation between Lancaster and York Counties over the Susquehanna River. The capitol of Continental Congress was in Lancaster City on 22 September 1777. Lancaster City was the capitol of Pennsylvania from 1799-1812. York City was the capitol of the Continental Congress from 1777-1778. The Articles of Confederation were drafted and adopted in York thus the establishing the first constituting and government for the United States of America. In 1789 Quaker leader Samuel Wright renamed Wright's Ferry as Columbia and petitioned the new U. S. Congress to make this the location of the U. S. Capitol.¹³

Marietta was established in the eighteenth century which is in contrast to some histories of the community placing the origins between 1800-1812. Marietta was settled by Scotch-Irish Presbyterians and Swiss German Mennonites which is in contrast to some histories claiming the community was settled exclusively by Scotch-Irish Presbyterians. The Scotch-Irish Presbyterians founders focused on transportation along the Susquehanna River and Pennsylvania Canal, while the Mennonites founders initiated lumber production and related industries. Both entrepreneurial founding groups relied on transient workers.

Initially British fur traders, competing with French fur traders, established economic relations with indigenous populations along the Susquehanna River. Welsh fur trader Robert Wilkins was likely born around 1672 in Brecon, Wales,¹⁴ arrived in the Marietta area sometime before 1702, at which time he married Elizabeth Ross in Lancaster County.¹⁵ Wilkins first settled along the Conestoga Creek, next to Richard Carter who settled Warwick Township. In 1718, Wilkins took up 200 acres of land along the Susquehanna River, and in 1727 he sold it to The Reverend James Anderson, primary founder of Marietta.¹⁶

¹⁶ Ibid.

The Reverend James Anderson (1678-1740), educated at Edinburgh, Scotland under the care of Principal Stirling,¹⁷ served The Donegal Presbyterian Church. Born in Scotland ordained by Irvine Presbytery, 17 November 1708 in Virginia. Anderson arrived in the Rappahannock, Virginia on 22 April 1709, before settling in New Castle, Delaware in 1717 later accepting a call to a congregation in New York City, which, at the time was worshipping in the City Hall. On 24 September 1726, he received a final call to the Donegal Presbyterian Church in Mount Joy. He was installed the last Wednesday in August 1727.”¹⁸

Wilkins’ neighbor, George Stewart (1683-1759), from Donegal, Ireland,¹⁹ was elected as one of the first Commissioners of Lancaster County at its formation in 1729 and elected to the Provincial Assembly in 1732 dying soon after his appointment.²⁰ After George Stewart passed, his son John Stewart (1705-1749) inherited the land and sold it to David Cook, sometimes spelled Cooke. John Stewart was married to Ann Anderson (1716-1816), the daughter of The Reverend James Anderson.²¹

David Cook (1721-1786), sometimes Cooke, was born in Lancaster County and is buried in The Donegal Presbyterian Church Cemetery, Mount Joy.²² Eventually, David Cook sold this land (purchased from John Stewart), to Jacob Heistandt Neff,²³ the middle and last name represent two prominent Mennonite families and surnames in Lancaster County and specifically the Marietta area. Jacob Heistandt Neff (1727-1798) was from Manor Township.²⁴

Marietta was founded by leaders and members of two prominent churches in Mount Joy. The Donegal Presbyterian Church (1732) and the Mount Joy Mennonite Church (1790). The Donegal Presbyterian Church was founded in 1727 with the church being built in 1732. The Reverend James Anderson (1678-1740), primary founder of Marietta, was the minister.²⁵ The Mount Joy Mennonite Church was founded in 1790, with members meeting for worship in their homes, as was the custom of the time and remains the practice of the Old Order Amish. In 1812 a log meetinghouse on land donated by Peter Delebaugh Kraybill (1784-1869).²⁶ The first minister of The Mount Joy Mennonite Church was The Reverend Jacob Hostetter Hershey (1747-1819).²⁷ Both The Reverend Jacob Hershey and Peter Kraybill are buried at the Kraybill Mennonite Cemetery in Mount Joy.²⁸

This points to the significance of the Presbyterians and Mennonites settling in Lancaster County after arriving in Philadelphia and Delaware, eventually realizing the economic significance of developing the land along the Susquehanna River associated with westward expansion of the nation. The early settlers settled in Mount Joy and not within the dangerous flood plain of the Susquehanna River. It also demonstrates the socio-economic bias of the settlers, believing poor lives were dispensable, poor transient workers living and working along the Susquehanna River, if they lost their lives and/or livelihood from flooding or from rowdy living, there are many histories of the community documenting drunken brawling in taverns, pubs, and hotels, the lives of these transient workers were not important, while the wealthy, benefiting from commerce along the Susquehanna River and Pennsylvania Canal, lived on higher safer ground in Mount Joy.

In current day Marietta, heading west from Cherry Lane to Bridge Street, is the area formerly called Anderson Ferry Grounds. James Anderson, IV (1767-1815), who operated Anderson Ferry owned this property until April of 1813 when he sold it to Henry Share.²⁹ Mennonite mill owner Heinrich Schaerr (1763-1830) aka

Henry Share and his business partners otherwise known as "Share & Company" operated the ferry while laying out and selling lots for buildings.³⁰

Heading west on Market Street (beginning at Waterford Avenue/Elbow Lane), these buildings are in James Anderson IV's (1767-1815) plan of Waterford which he laid out in 1804. Waterford ended at Cherry Lane (formerly Cherry Alley) which is the alley running along the western side of The Marietta Community House property.³¹ In 1733 George Stewart's son and daughter-in-law, John and Ann Stewart, inherited and sold the James Anderson tract to David Cook. This tract of land was given to his son David Cook whose son, David Cook, laid out the town of New Haven.³² By 1812, James Anderson and James Cook procured a charter from the Pennsylvania legislature and named their incorporated towns Marietta. The next year, 1813, Anderson's town Waterford and Cook's town New Haven were consolidated including a tract of land owned by John Myers east of Moravian Town and a tract of land owned by Benjamin Long north of Waterford.³³

Historically, several homes in the Anderson Ferry Grounds and Old Town Waterford were owned by people associated with GlaxoSmithKline a global biopharma company, located in Marietta, originally called the Lancaster County Vaccine Farm. In 1882 Dr. H. M. Alexander used the methods of British physician and scientist, Edward Jenner (1749-1823) to create a vaccine for smallpox which he manufactured and sold commercially nationwide and globally.

The work began in a chicken house adjacent to his office at 299 West Market Street. He purchased the H. McMullen Farm in the Irishtown neighborhood of Marietta located at Wasp and Biddle Streets and established the first commercial biological laboratory in the United States known as Dr. H. M. Alexander and Company and also as the Lancaster County Vaccine Farm.³⁴ By the time of the First World War, in 1916, the heirs of Dr. Alexander sold their shares of the company to the Gilliland Laboratories, Inc. During the Second World War, in 1943 Gilliland Laboratories was acquired by the American Home Products Corporation. The following year, in 1944, The American Home Products Corporation was incorporated into the Wyeth Laboratories, Inc. In 2005 Wyeth Laboratories was acquired by Britain's largest drugs maker, GlaxoSmithKline.

In 2024 GlaxoSmithKline announced an 800-million-dollar new multi-purpose facility capable of manufacturing sterile liquid vaccines with a house a state-of-the-art R&D pilot plant to manufacture medicines for clinical trials. Additionally, GSK will establish a new vaccines drug substance facility at the site, dedicated to manufacturing products based on the company's novel MAPS technology. This expansion will double the size and capacity of the Marietta site.³⁵

In 1961, The Marietta Recreation Association hosted an event called, "A Day in Marietta Homes," held on 13 May 1961, showcasing the rich variety of historic architecture and telling the stories of the historical significance of these properties. One year later, on 19 May 1962, the second annual "A Day in Marietta Homes," historic architecture house tour was held in conjunction with celebration events for the Marietta Sesquicentennial (1812-1962). Planning for the Marietta Sesquicentennial (1812-1962) started Monday 11 September 1961 with a committee.

Civically engaged residents of the Marietta Borough who organized The Marietta Sesquicentennial (1812-1962) celebration events and the two annual historic architecture house tours; chartered, on 23 June 1965, a non-profit organization named the Marietta Restoration Associates, Inc. The purpose of this grass roots community organization was "...to promote, encourage, and conduct the restoration, development, and preservation of the historical, cultural, and aesthetic aspects of the Borough of Marietta, and vicinity thereof, and to do all things necessary, proper, and incidental to the accomplishment of such purpose."

In 1965 the Historic Preservation Trust of Lancaster was created to "stem the rapid destruction of historic properties in Lancaster County," the Historic Preservation Trust of Lancaster County's mission is to

“encourage and facilitate historic preservation throughout the county. The Trust has been directly involved in preserving more than three dozen important Lancaster County landmarks and has provided advice, assistance and guidance in the protection of others.”

In the autumn of 1966, President Lyndon Baines Johnson (1908-1973), signed into law, on 15 October 1966, The National Historic Preservation Act to preserve historic and archeological sites in the United States through creating The National Register of Historic Places, the List of National Historic Landmarks, and State Historic Preservation Offices.

In 1966 Edward F. LaFond, Jr. was appointed the Field Curator of the Pennsylvania Bureau of Historic Sites and Properties in Harrisburg and the State Preservation Officer for the Pennsylvania Register of Historic Sites and Properties.

In December 1966 the Marietta Restoration Associates, Inc. resumed the annual historic house tour calling the event “Christmas by Candlelight” later known as “Candlelight Tours of Marietta.

In 1969, a History Major from Elizabethtown College, Carl H. Doan, Class of 1973; was taking courses about local history and historic preservation from Professor Scott T. Swank, Elizabethtown College Class of 1964, who taught at the college from 1966-1974. Professor Swank lived in Marietta, owned, and restored several historic properties in the borough.

Professor Swank secured for his student, Carl Doan, the very first college student internship working with the recently established State Historic Preservation Office, in Harrisburg, with Edward LaFond. Until he graduated from the College in 1973, Doan was conducting National Historic Preservation Act Section 106 Reviews of Marietta, ten years before Marietta was listed as a National Historic District.

In the summer of 1973, the summer Carl Doan graduated from Elizabethtown College, Hurricane Agnes hit from 14 June through 6 July 1972. In the aftermath of this tropical cyclone, residents of Marietta, particularly through the leadership of the Marietta Restoration Associates, Inc. saved most of the historic properties, launched a nationally recognized historic preservation initiative which continued to sustain the local economy.

On 18 July 1978 the Borough of Marietta was designated a National Historic District. On 17 August 1984 the Marietta National Historic District was expanded. On 26 December 2005 the Chickies National Historic District established to incorporate the former lumber, iron, and steel manufacturing-built landscape and ruins adjacent to the Marietta National Historic District.

Within the Marietta National Historic District three properties are listed on the National Register of Historic Places: New Haven Counting House, 104 East Front Street, listed on 7 September 1979; the Silk Mill Condominiums, 50 North Pine Street, listed on 27 June 1980, and the Linden House, 606 East Market Street, listed on 6 January 1983.

In the spring semester 2019, Honors students enrolled in HON-PHS 201 - HNR Elizabethtown History: Campus and Community, taught by Professor Jean-Paul Benowitz conducted National Historic Preservation Act (NHPC) Section 106 Reviews documenting historic properties in the National Historic District of Marietta, Pennsylvania. On two occasions students presented their research findings: Elizabethtown College Scholarship and Creative Arts Day SCAD16 April 2019 and Marietta Day Community Festival 11 May 2019 in Marietta.

During the summer of 2019 as a Summer Scholarship, Creative Arts and Research Projects (SCARP), Honors student Kyle C. Cappucci plotted the student scholarship on an ArcGIS map, available online. This ongoing project will include: every house/building in Marietta listed on the: National Historic Register (NRHP), Historic Preservation Trust of Lancaster County (HPTLC), Historic Preservation Trust of Lancaster County Watch List, Marietta Historic District (MHD), Chickies Historic District (CHD) to be plotted on the ArcGIS maps.

To illustrate which historic properties, in the Marietta National Historic District, are plotted on the ArcGIS map, for SCARP 2019 Cappucci designed signs, 8.5x11 printed as window clings to be displayed inside a windowpane of each of the houses and properties on his inventory of historically significant properties in Marietta. These signs contain information about the history and the families with direct ties to the property.

Cappucci built on the research conducted during the spring 2019 semester and expanded the scope of the project. Cappucci utilized primary sources found in archival collections and historic collection libraries, conducted oral history interviews, worked with government documents such as deeds, tax records, and property

assessment reports, consulted with professional historians in academia, state, and federal agencies, and compared primary sources to secondary sources. The repositories for sources used in his research was a mixture of print records in libraries, archives, museums, historic sites, and private collections as well as electronic and digital repositories. Cappucci worked carefully with representatives from the Marietta Restoration Associates, Inc., Marietta Historic District, Marietta Borough Council, Social Enterprise Institute at Elizabethtown College, RiverStewards and Susquehanna Riverlands.

Cappucci's research about the historical significance of Marietta, Pennsylvania, published through the ArcGIS map, contributed to the work of RiverStewards and Susquehanna Riverlands to have the Susquehanna Pennsylvania Heritage Area designated simultaneously as a National Heritage Area. The Pennsylvania Department of Conservation and Natural Resources (DCNR) administers twelve (12) Pennsylvania Heritage Areas. The Pennsylvania Heritage Areas Program is a multi-region asset-based economic development program rooted in the commonwealth's rich natural, cultural, and industrial history. Heritage Areas create cross-sector partnerships enhancing a region's "sense of place" and strengthens regional economies. These partnerships create vibrant livable communities attracting private investment and housing the products and places driving Pennsylvania's tourism industry. Five of Pennsylvania's Heritage Areas share a national designation through the National Park Service. Pennsylvania has more federally designated Heritage Areas than any other state, a testament to the important role this commonwealth played in the development of the United States and globally. The Economic Impact of Pennsylvania Heritage Areas report from the Center for Rural Pennsylvania, found in 2014: Tourists spent an estimated 7.5 million days and nights in Pennsylvania's Heritage Areas, purchasing more than \$2 billion worth of goods and services; 70 percent of this spending was purely reliant on heritage-related attractions; the total contribution of heritage visitor spending to the state economy was 25,708 jobs and \$798 million in labor income.

This summer 2022 the leadership for the Susquehanna National Heritage Area just released their draft of a management plan for the Susquehanna National Heritage Area. Lancaster and York Counties were officially designated as a Susquehanna National Heritage Area and America's 55th National Heritage Area on 12 March 2019, when the John D. Dingell, Jr. Conservation, Management, and Recreation Act was signed into law in Washington, D. C. The National Historic District of Marietta, PA is part of the SNHA which involves collaboration with the National Parks service for heritage interpretation, education, historic preservation, land conservation, and cultural heritage tourism. This Susquehanna National Heritage Area designation was made possible, in part, by the scholarship produced by Professor Benowitz's Public Heritage courses and the scholarship produced over four years of Elizabethtown College Summer Creative Arts and Research Program (SCARP) projects conducted by Kyle Cappucci.

This ongoing SCARP project has created a partnership between the Elizabethtown College's Honors Program and 13 community partners: The Lancaster Economic Development Company, The Lancaster County Planning Department, The Lancaster County Redevelopment Authority, The National Main Street Center, The Pennsylvania Downtown Center, The National Trust for Historic Preservation, Preservation Pennsylvania, The Trust for Historic Preservation Lancaster County, The Marietta Restoration Associates, Our Marietta, RiverStewards, Susquehanna Riverlands, Marietta Area Business Association, and the Marietta Borough.

Collectively these groups have been working together to identify, conserve, and preserve Marietta's heritage resources as a basis for retaining and enhancing strong community character and sense of place. Integrating the conservation and preservation of heritage resources in the economic development and revitalization of Marietta. Ensuring new economic development respects and complements the patterns, character, and scale of Marietta's traditional communities and rural landscapes. Promoting strong leadership, collaboration, awareness, and responsibility in the conservation of Marietta's heritage resources among the public, private, and non-profit sectors celebrating and promoting Marietta's heritage resources. This work contributes to ensuring adequate financial resources and incentives are available to implement the Marietta's heritage preservation goals through employing a strategy developed by The National Trust for Historic Preservation (1949) called "This Place Matters!"

This Place Matters is a national campaign, created by the National Historic Preservation Trust, encouraging people to celebrate places meaningful to them and to their communities. Since 2015, participants have shared more than 10,000 photographs of themselves and their favorite places on social media using the

hashtag #ThisPlaceMatters. ‘This Place Matters’ started in 2008 as a way for people to shine a spotlight on the historic places playing a role in their lives. Basically, it is like crowdsourcing people’s personal connections to the built environment,” says Jason Clement, director of community outreach at the National Trust. “And the best part -- there are zero rules. These can be places large or small, nationally significant or personally priceless, historic or maybe just old. They just have to mean something to you.” The project is simple: Visit the Saving Places website to download the tool kit and print a sign. Take photos with the sign at the places mattering the most to you and share the photos with others on social media with the hashtag #ThisPlaceMatters. The virtual preservation project offers people opportunities to add their personal narratives to the history of places meaningful to them, whether those places are community churches, elementary schools, a barn on an old family farm, or the old corner. The project has a very DIY feel to it and has no long-term political or high-cost agenda, yet it encourages people to reignite those connections to places having and continuing have importance to them. Every person out there has a place meaning something to them, and “This Place Matters” provides a platform -- adapted to our changing world of social media and selfie sticks -- to preserve, remember, and share this love of these places. This campaign is not just public awareness through photography and social media. It is about telling the stories of why these places hold historical significance. Through This Place Matters, the National Historic Preservation Trust, encourages and inspires an ongoing dialogue about the importance of place and preservation.

The Borough of Marietta has a Heritage Plan and with this objective: “Integrate the conservation and preservation of heritage resources in the economic development and revitalization of the Marietta borough’s varied resources. Promote historic and cultural resource conservation and preservation as an economic tool in the revitalization of Marietta and its neighborhoods. Develop additional heritage tourism opportunities as a form of economic development both sustainable and asset-based.”

This Community Based Learning (CBL) project, a collaboration between the Elizabethtown College Honors Program and Marietta Borough’s Our Marietta initiative utilizes an asset-based planning process through a grass roots local community action task force called “Our Marietta.”

This effort endeavors both to cultivate viable working relationships among local government and business leaders, residents, community based organizations, and regional agencies to enact a plan benefiting the community and economic development future of Marietta Borough in collaboration with the Marietta Historic District, the Chiques Historic District, the Northwest Lancaster County River Trail, Marietta Restoration Associates, Inc.; RiverStewards, Inc.; Rivertownes PA USA, Inc.; and Susquehanna Heritage, Inc.

This CBL project involves the Susquehanna Riverlands Conservation Landscape initiative’s objectives to revitalize the Rivertown communities of Marietta, Columbia, and Wrightsville. The Northwest Lancaster County River Trail has positioned Marietta to provide recreational opportunities, important conservation benefits, tourism, and historic preservation projects helping spur revitalization in Marietta Borough. This project will involve collaboration with the Lancaster County Planning Commission, the Lancaster County GIS Department, and the Economic Development Company of Lancaster County.

This project employs the active learning pedagogy from the National Collegiate Honors Council’s City as Text™. The National Collegiate Honors Council’s Signature Program “The City As Text” is where students immerse themselves in the local community exploring the culture and geography of the local neighborhood. Students are challenged to be sensitive and reflect about the human experience in the local built environment. Through City As Text Honors students explore the architectural landscape of the neighborhood, conduct research in repositories of the public record i.e. libraries or archives. Books read, images acquired, sounds heard, tastes and smells ingested, and observations all become materials contributing to the students’ experience about not only how much is normally missed in an ordinary day of one’s life but also how much might be seen and heard. City As Text is an active learning approach helping students regard the world as a book to be read and to see their journey through it as a cartographer’s task of charting the personal paths they take to uncover and discover the local environment around them.

This project draws heavily on research methods taught in the course HON 201 - HNR Elizabethtown History: Campus and Community (PHS 201) and the ArcGIS maps created by students in this class illustrating the history and economic development of Marietta, Pennsylvania. The major objective of this project is to contribute to Our Marietta’s asset-based planning process to identify and mobilize existing as well as

unrecognized resources such as physical, human, social, financial, environmental, political, cultural, and historical assets.

Kyle Cappucci gave a presentation entitled: “Putting Historic Marietta on The Map: This Place Matters!” presented: Scholarship and Creative Arts Day (SCAD) at Elizabethtown College on Tuesday 16 April 2019. Members of the Marietta Borough Council attended the presentation and invited Cappucci to give his presentation at the Marietta Borough Council meeting on Tuesday 9 July 2019. The Mayor of Marietta extended this same invitation to Cappucci, when he heard Cappucci’s presentation at Marietta Day on Saturday 11 May 2019. Cappucci also presented at the Landmark Conference Landmark Research Symposium for SCARP at Elizabethtown College on Thursday 11 July 2019. Cappucci accepted an invitation to speak at a Marietta town hall forum hosted by “Our Marietta” regarding historic preservation and economic development on Wednesday 17 July 2019.

In 2021 Cappucci’s SCARP project was entitled, “Ecological and Economic Revitalization Through Historic Preservation of the Northwest Lancaster County River Trail in the National Historic District of Marietta, Pennsylvania.” The Maryland-based Chesapeake Bay Trust awarded Marietta Borough a \$237,515 grant. The funding was used to improve a section of the Northwest Lancaster County River Trail running through Marietta. Previously a gravel section of trail was replaced with porous pavement and lined with water-capturing rain gardens. The project also made the trail complainant with the Americans with Disabilities Act. Marietta Borough secured the grant, in part, through Honors students’ scholarship published online with ArcGIS maps (SCARP 2019 and 2020).

A local township engineer and historian commented on how the Elizabethtown College Honors Program’s Community Based Learning/Civic Engagement ArcGIS maps have been a “very compelling way of engaging a broader audience with the beauty of built history and importance of preservation. The current proprietor of the Rail Road House and McCleary’s Pub, Freddy States, is a local entrepreneur serving on the Marietta Borough Council who has a vision for economic development in Marietta in conjunction with the Lancaster County River Trail. Freddy States has made Marietta a destination for tourists. Marietta is located in Lancaster County drawing millions of visitors who contributed \$2.91 billion in tourism in 2018. For seven decades, the local tourism industry has been a major contributor to the economy of Lancaster County. The number of tourism industry direct jobs makes tourism Lancaster County’s sixth largest private sector, non-farm category in the local economy. In 2018, some 8.85 million visitors came to Lancaster County, up 2.5% from the previous year.

Marietta Borough, a National Historic District, received a “Placemaking” grant from the Lancaster County Conservancy’s Susquehanna Riverlands program and a grant from the National Fish and Wildlife Federation. Marietta Borough leadership has created a Heritage Plan to promote and protect its historical, recreational, environmental, arts and cultural resources making it a destination location and spurring economic development. The specific goals for this project are dictated by the goals of Marietta’s Placemaking Heritage Plan: Identify, conserve, and preserve Marietta’s heritage resources as a basis for retaining and enhancing strong community character and a sense of place; Integrate the conservation and preservation of heritage resources in the economic development and revitalization of Marietta’s varies resources; Promote historic and cultural resource conservation and preservation as an economic tool in the revitalization of Marietta and its neighborhood; Develop additional heritage tourism opportunities as a form of economic development both sustainable and asset- based; Strengthen the involvement of the Marietta Borough Council in heritage conservation, and ensure it is an integral part of the municipal plan; Encourage local residents to volunteer in interpretative programs at publicly and privately operated historic and cultural venues; Build the public’s awareness of heritage resources and the value of conserving and preserving these resources.

At the end of the Spring Semester 2022, Kyle Cappucci defended his Honors in the Discipline (HID) program in the School of Business Project: “Community Economic Development In the National Historic District of Marietta, Pennsylvania.” Cappucci had two surveys posted in the Marietta community. One survey was for persons patronizing local business and the second survey was for persons engaging in recreation on the Northwest Lancaster County River Trail. Both surveys illustrate why persons visit and live in Marietta. Both surveys revealed what persons who live and visit Marietta believe can contribute to the economic development of the local community. I have shared these findings with the leadership of Marietta Borough

contributing to their asset-based planning process identifying and mobilizing existing as well as unrecognized resources such as physical, human, social, financial, environmental, political, cultural, and historical assets.

In the summer of 2022, student Eric Schubert engaged in a Summer Creative Arts and Research Program (SCARP) project entitled: “Launching A National Historic Preservation Trust ‘This Place Matters’ Campaign Supporting Marietta, Pennsylvania’s ‘Placemaking Heritage Plan,’ Through The National Honors Collegiate Council’s ‘Place As Text.’” Using the toolkit provided by the National Historic Preservation Trust, Schubert collaborated with the leadership on the Marietta Borough and Pennsylvania Department of Transportation’s historian and archeologist in designing a plan for launching a social media campaign for Marietta. Schubert’s context for this campaign was recognizing the resilience of the people of Marietta in the fifty years since Hurricane Agnes. Schubert secured funding from local businesses to underwrite the cost of printing and mailing a poster, foldable, with instructions on how to post This Place Matters selfies on social media. These posters were mailed out to residents in the Marietta National Historic District prior to the first public event introducing the This Place Matters Campaign. The This Place Matters campaign for Marietta was rolled out at the Marietta Community House, as part of their “Town Talks” programming where Schubert presented: “This Place Matters: Historic Preservation & Economic Development in Marietta.” Schubert’s presentation provided the local community with the necessary context for launching the This Place Matters Campaign for Marietta while simultaneously contributing to a wider community series of events recognizing the resilience of the Marietta community in the 50 years since Hurricane Agnes. Schubert presented at the 13th Annual Landmark Conference Undergraduate Research Symposium at Moravian University, his poster presentation was entitled: “Launching A National Historic Preservation Trust ‘This Place Matters’ Campaign Supporting Marietta, Pennsylvania’s ‘Placemaking Heritage Plan,’ Through The National Honors Collegiate Council’s ‘Place As Text.’”

Cappucci and Schubert joined Professor Benowitz in presenting at the 56th Annual Conference of the National Collegiate Honors Council in Orlando, Florida 27-31 2022; about their experiential learning, civic engagement, and their SCARP projects related to earning the Certificate in Public Heritage Studies. The theme of the conference was "Reimagine Honors: Past, Present, Future,." Cappucci and Schubert’s presentation was entitled, “Honors Community-Based Learning Uninterrupted: Pandemic Possibilities.” At the conference, NCHC released a monograph entitled, Place, Text, Community: City As Text in the Twentieth Century. Professor Benowitz authored the chapter entitled, "Transforming Community Based Learning Through City As Text" in Part 3: "Designing City As Text Integrative Learning Experiences." In his chapter Professor Benowitz discusses how he has integrated the NCHC pedagogy City As Text into the field work required in courses for the Public Heritage Studies Certificate.

2022 marked the Marietta Restoration Associates’ 56th Annual “Marietta Candlelight Tour of Homes.” The Marietta Restoration Associates invited Elizabethtown College students, earning the Certificate in Public Heritage Studies (most of whom are in the Honors Program) to present their scholarship about historic preservation in Marietta at this event on Sunday 4 December 2022. More than 1,000 visitors toured the Union Meeting House (1818) where students gave poster presentations and shared their ArcGIS maps illustrating historic preservation efforts in Marietta.

On Sunday 16 April 2023, Honors students, enrolled in Professor Benowitz’s course Elizabethtown History: Campus and Community, showcased their Civically Engaged Research project, launching a National Trust for Historic Preservation “This Place Matters” campaign, for the National Historic District of Marietta, Pennsylvania. The event called “Fifty Years Since Hurricane Agnes (1972-2022) This Place Matters! National Trust for Historic Preservation: Celebrating Historic Preservation & Economic Development in Marietta” was held in the Marietta Community House.

Employing the National Honors Collegiate Council’s pedagogy “Place as Text,”TM Honors students engaged in fourteen weeks conducting field work examining, interpreting, recording the architecture of historically significant properties in Marietta. Students delved into historic records conducting meticulous archival research using primary and secondary sources and government records. As part of the NCHC Place as Text experience, students conducted numerous oral history interviews with the owners of historically significant properties assigned to them as the focus of their course project.

Using the National Historic Preservation Act Section 106 Process, students authored thorough reports about the architecture, biographical narrative of all the property owners over a course of more than 200 years, the historical context and significance of the property and the property owners and documented the resilience of a river community's history of addressing flooding, re-building, historic preservation, and economic development.

June 14-July 6, 1972, Hurricane Agnes devastated Marietta. Based on federal, state, and local legislation for historic preservation, passed just before Hurricane Agnes, Marietta was well positioned to re-build after Agnes and set the example, nationally, for historic preservation and economic development. The students told this story through poster board presentations entitled, "Fifty Years of Preservation and Perseverance in Marietta, Pennsylvania: The Aftermath of Hurricane Agnes (1972-2022)."

Every summer Elizabethtown College sponsors student and faculty research collaboration projects through a program called the Summer Scholarship Creative Arts and Research Program. Since 2019, for four consecutive summers, Kyle Cappucci, Elizabethtown College Class of 2022 and Eric Schubert, Elizabethtown College Class of 2023; were involved with SCARP projects building the foundation for launching a National Trust for Historic Preservation "This Place Matters" campaign, for the National Historic District of Marietta.

Through their research, scholarship, and leadership they established a partnership with Elizabethtown College's Honors program and Public Heritage Studies program with thirteen community partners: The Lancaster Economic Development Company, The Lancaster County Planning Department, The Lancaster County Redevelopment Authority, The National Main Street Center, The Pennsylvania Downtown Center, The National Trust for Historic Preservation, Preservation Pennsylvania, The Trust for Historic Preservation Lancaster County, The Marietta Restoration Associates, Our Marietta, River Stewards, Susquehanna Riverlands, Marietta Area Business Association, and the Marietta Borough.

This partnership has been working together for (1) identifying, conserving, and preserving Marietta's heritage resources (2) retaining and enhancing strong community character and sense of place (3) integrating the conservation and preservation of heritage resources in Marietta's economic development and revitalization (4) ensuring new economic development respecting and complementing the patterns, character, and scale of Marietta's traditional communities and rural landscapes (5) promoting strong leadership, collaboration, awareness, and responsibility in conserving Marietta's heritage resources among the public, private, and non-profit sectors (6) celebrating and promoting Marietta's heritage resources.

This work contributes to ensuring adequate financial resources and incentives are available for implementing Marietta's heritage preservation goals. The Elizabethtown College Public Heritage Studies program works with Marietta Borough in implementing their "Placemaking Heritage Plan." Placemaking is a people-centered approach to the planning process, design and management of public spaces. Put simply, it makes people feel good about where they live, work or play.

The concepts behind placemaking originated in the 1960s, when activist Jane Jacobs (1916-2006), in her book, The Death and Life of Great American Cities (1961), offered groundbreaking ideas about designing communities catering to people. Jane Jacobs' work focused on the importance of lively neighborhoods and inviting public spaces. The term came into use in the 1970s by landscape architects, architects, and urban planners to describe the process of creating squares, plazas, parks, streets and waterfronts attracting people because these places are pleasurable or interesting. The work continues through the Jane Jacobs Center for the Living City which serves as a model for the Civically Engaged Research and Community Based Learning projects of Honors students enrolled in Public Heritage Studies courses at Elizabethtown College.

As part of this event, a civic engagement information fair was hosted by representatives from Marietta Restoration Associates, Historic Preservation Trust of Lancaster County, Main Street Program (Pennsylvania Downtown Center), Lancaster County Planning Department, and the Susquehanna National Heritage Area at Columbia Crossing.

At this event on Sunday Cappucci and Schubert gave a PowerPoint presentation entitled "Fifty Years Since Hurricane Agnes (1972-2022) This Place Matters! National Trust for Historic Preservation: Celebrating Historic Preservation & Economic Development in Marietta." In this presentation Marietta Mayor Rebecca Carroll Baltozer spoke about Marietta Restoration Associates and 50 years of historic preservation in Marietta. Historic preservationist architect Daniel Gagliano, representing The Historic Preservation Trust of Lancaster County, spoke about 50 years of historic preservation in Lancaster County. PennDOT Architectural Historian,

Jeremy Ammerman spoke about 50 years of historic preservation in Pennsylvania. Carl Doan Elizabethtown College Class of 1973 spoke about his time as a history major at Elizabethtown College in the 1960s when President Lyndon Johnson passed national legislation for historic preservation and how, when, he was a student he conducted fieldwork, research, photography, writing documenting historically significant properties in Marietta in the months just prior to Hurricane Agnes. Marietta Borough Council Vice President and Chair of Public Works, Freddy States spoke about past, present, and future historic preservation, and economic development projects for Marietta. Professor Benowitz spoke about the history of Marietta and the history of historic preservation and asset based economic development.

This is one of ten reports presented as a poster presentation, accompanied by an ArcGIS map, entitled “Anderson’s Ferry Grounds & Old Town of Waterford: West Market Street, Formerly High Street Marietta, Pennsylvania; The Homes of Israel Goodman (1824-1903);” by Honors students enrolled in the course Elizabethtown History: Campus and Community, at Elizabethtown College for Scholarship and Creative Arts Day on Tuesday 22 April 2025.

Jean-Paul Benowitz

Elizabethtown College Director of Public Heritage Studies

11 February 2025

Property Details:

This residential property is 5,227 sq ft; situated on 0.12-acre lot, featuring two and a half stories, with a total living area of 2,182 sq ft, with two full baths, two bedrooms, and a total of seven rooms, single two story fireplace, oil fired forced air furnace, hooked up to public electric, public gas, public sewage, public water; the roofing material is slate 2,182 sq ft, total basement area is 616 sq ft, exterior walls are masonry common brick 2,182 sq ft, paving is concrete unreinforced hand mixed and spread 260 sq ft, open slab porch 24 sq ft, slab porch with roof 200 sq ft., detached brick garage 280 sq ft, detached enclosed masonry shed 88 sq ft, detached gazebo 100 sq ft.,
36

Deed Search:

Samuel and Elizabeth Eby signed onto the deed record November 16, 1871. The property was then in the ownership of the Court of Orphans Clerk when it was then transferred to Barbara Haur March 13, 1819. The home was then transferred by Haur to Mary E. Hopkins and Annie J. Fletcher on February 24, 1903. The home was then transferred by Hopkins and Fletcher to Walter L. Leese and Bertha E. Leese on November 8, 1935. Leese's then signed the home over to Scott B. Fritz and Elanor Q. Fritz on April 25, 1938. Fritz's then transferred the home to Angelo A. Albano and Corable A. Albano on December 4, 1959. Albano's signed the home over to Richard k. Floyd and Corene M. Floyd on September 12, 1964. The home was then kept in the Floyd family by James M. Floyd & Barbara A. Floyd when the home was transferred to them on October 5, 1972. The home was then transferred to James H. Ibaugh III. & Luann Ibaugh on October 31st, 1975. The home then reached its most recent transfer which was from the Ibaugh's to Brain T. Reiter & Pearl H. Reiter on October 28, 1977.

Architectural Style:

The architectural style of this house is the federalist style. Federal is a distinct and elegant architectural style, flourished in the United States from around 1780 to 1820. According to the Pennsylvania Architectural Field Guide, by the Pennsylvania Historical and Museum Commission, "The Federal style is also known as the Adam style, after the Adam brothers, British architects who developed this style in England. It is really a refinement of the Georgian style, which was popular in the years preceding the Federal style. Like the Georgian style, the Federal style is designed around center hall floor plan, or side hall for narrow row houses. The Federal style has many of the same elements of the Georgian style - symmetry, classical details and a side gabled roof - yet it is different in its ornamentation and sophistication. Federal details are more delicate, slender and finely drawn than their Georgian counterparts and may feature swags, garlands and urns. Also, more formal elements were introduced in the Federal style, such as the front door fanlight window, sometimes with flanking sidelights, and more elaborate door surrounds and porticos. The Federal style is also known for dramatic windows, three part or Palladian windows with curved arches. Another outstanding - yet less common - Federal feature is the use of curving or polygonal window projections. The Federal style became popular throughout the colonies after the American Revolution and was dominant until about 1820, when it was supplanted by the Greek or Classical Revival Style. The easiest way to identify a Federal style building from a Georgian one is to look for the elliptical fan light over the front door or the Palladian windows - not that those design features do not appear in later styles as well. The Federal house in Pennsylvania is usually a brick two- or three-story building."³⁷

Shingle Style 1880 – 1900 The Shingle style house is marked by the presence of shingles on not just the roof, but on the wall surfaces themselves. The first-floor walls may be shingled, or of stone or brick. Shingles may also cover gable ends, curving towers and porch columns. Shingle style buildings have a rather monochrome appearance since the shingles are unpainted and uniformly cover most exterior surfaces. In shape and form, the Shingle style resembles the Queen Anne style, but it lacks abundant decorative details. Porches are expensive,

³⁶ "Lancaster County Property Tax Inquiry," Lancaster County, last modified January 15, 2025, <https://lancasterpa.devnetwedge.com/parcel/view/4207861900000/2024>

³⁷ "Federalist Style 1780-1820 | PHMC > Pennsylvania Architectural Field Guide," www.phmc.state.pa.us, accessed February 13, 2025 <https://www.phmc.state.pa.us/portal/communities/architecture/styles/federal.html>

often wrapping around the front and sides of the building. Roofs are generally sweeping and multi-gabled. Windows are small and multipaned and are often grouped in pairs or triples. This style was employed by prominent American architects like H.H. Richardson, Frank Lloyd Wright and the firm of McKim, Meade, and White. The Shingle style is sometimes referred to as an outgrowth of the Queen Anne style as influenced by the early shingled buildings of New England colonies. The style began in that region and some of the earliest and most notable examples are located there. The Shingle style spread throughout the country, but never became as popular or prevalent as the Queen Anne style. It remained a high fashion, architect designed style that was seldom translated into more vernacular housing use. Architect Wilson Eyre was responsible for several Stick style buildings in the Philadelphia area.³⁸

The home features an oriel window on the front side of the home. Atop the window is a pedimented dormer adorned with additional exterior detailing.

³⁸ "Shingle Style 1880 - 1900 | PHMC > Pennsylvania Architectural Field Guide," www.phmc.state.pa.us, accessed February, 13, 2025, <https://www.phmc.state.pa.us/portal/communities/architecture/styles/shingle.html>

This is the oriel window for a closer angle. The dormer with its shingling detail is also more visible from this angle.

The side of the home features a sleeper porch and a better view of some of the brackets on the home. The sleeper porch was typically used during the summer months to ensure comfortable sleeping conditions. The dormer is also more pronounced from this angle. The chimney is also visible from this side of the home.

This photo provides a more accurate depiction of the bracketing detail on the home as well as the roof shingling. The shingle pattern on the roof is a decorative detail. These brackets can be seen on the entire exterior of the home. They feature varying yet almost identical curved patterns.

Sanborn Fire Insurance Maps:

Sanborn Maps are named for civil engineer and surveyor Daniel Alfred Sanborn (1827-1883) founder of the Sanborn Map Company (1866-1996). Sanborn maps are detailed maps of U. S. cities and towns originally created for insurance companies to assess liability in urbanized area of the U. S. after the Civil War (1861-1865). The Homestead Act (1862), transcontinental railroad construction (1863-1869), the Second Industrial Revolution (1870-1914), and massive European immigration to the U. S. (1882-1914) all fostered increased population, urbanization, and a heightened demand for mapping. Sanborn maps are valuable for documenting changes in the built environment of American cities over many decades. Sanborn maps include outlines of each building and 13 “Pennsylvania Architectural Field Guide,” Pennsylvania Historical and Museum Commission, last modified August 26, 2015, <http://www.phmc.state.pa.us/portal/communities/architecture/index.html>. 11 outbuilding; the location of windows, doors, fire walls, and porches; as well as the composition of building materials including the framing, flooring, and roofing materials; indicating building uses, sometimes even particular room uses; house and block numbers; street names, street and sidewalk widths, property boundaries; natural features such as rivers and canals; railroad corridors and the names of most public buildings, churches, and businesses. Sanborn maps are primarily found in the archives of special collections of historical libraries, town halls, and academic libraries. Sanborn maps facilitate historical research through the study of urban growth and decline patterns as well as researching the evolution of specific buildings, sites, and districts. Historic preservationists use Sanborn maps for understanding the significance of historical buildings, the historic use of buildings, and building materials in conservation and rehabilitation efforts as well as locating residences and workplaces of historically significant past residents and local community leaders and also to study the patterns of growth and migration of populations. Students in this class use Sanborn maps to trace the evolution of the historically significant property assigned to them as well as illustrate the growth of Marietta.

Two and a half story brick residence, front bay window, wood-frame porch, two southside windows on the residence, one-story frame outbuilding in the northwest corner of the lot

History of Marietta, Pennsylvania

*Founding Families of Marietta*³⁹

Marietta was established in the eighteenth century which is in contrast to some histories of the community placing the origins between 1800-1812. Marietta was settled by Scotch-Irish Presbyterians and Swiss German Mennonites which is in contrast to some histories claiming the community was settled exclusively by Scotch-Irish Presbyterians. The Scotch-Irish Presbyterians founders focused on transportation along the Susquehanna River and Pennsylvania Canal, while the Mennonites founders initiated lumber production and related industries. Both entrepreneurial founding groups relied on transient workers.

Initially British fur traders, competing with French fur traders, established economic relations with indigenous populations along the Susquehanna River. Welsh fur trader Robert Wilkins was likely born around 1672 in Brecon, Wales,⁴⁰ arrived in the Marietta area sometime before 1702, at which time he married Elizabeth Ross in Lancaster County.⁴¹ Wilkins first settled along the Conestoga Creek, next to Richard Carter who settled Warwick Township. In 1718, Wilkins took up 200 acres of land along the Susquehanna River, and in 1727 he sold it to The Reverend James Anderson, primary founder of Marietta.⁴²

³⁹ This section of the property report was authored by Eric J. Schubert, Elizabethtown College Class of 2023, History and Political Science major, Founder and Genealogist of ES Genealogy, for a presentation by students in this class, entitled "Marietta, Pennsylvania's Historic Homes On Front Street: Transportation, Trade, Triumph, and Tragedy Along The Susquehanna River and the Pennsylvania Canal" at Elizabethtown College for Scholarship and Creative Arts Day Tuesday 20 April 2021.

⁴⁰ WeRelate, "Robert Wilkins" [https://www.werelate.org/wiki/Person:Robert_Wilkins_\(7\)](https://www.werelate.org/wiki/Person:Robert_Wilkins_(7)), accessed May 19, 2021

⁴¹ Ibid.

⁴² Ibid.

The Reverend James Anderson (1678-1740), educated at Edinburgh, Scotland under the care of Principal Stirling,⁴³ served The Donegal Presbyterian Church. Born in Scotland ordained by Irvine Presbytery, 17 November 1708 in Virginia. Anderson arrived in the Rappahannock, Virginia on 22 April 1709, before settling in New Castle, Delaware in 1717 later accepting a call to a congregation in New York City, which, at the time was worshipping in the City Hall. On 24 September 1726, he received a final call to the Donegal Presbyterian Church in Mount Joy. He was installed the last Wednesday in August 1727.”⁴⁴

Wilkins’ neighbor, George Stewart (1683-1759), from Donegal, Ireland,⁴⁵ was elected as one of the first Commissioners of Lancaster County at its formation in 1729 and elected to the Provincial Assembly in 1732 dying soon after his appointment.⁴⁶ After George Stewart passed, his son John Stewart (1705-1749) inherited the land and sold it to David Cook, sometimes spelled Cooke. John Stewart was married to Ann Anderson (1716-1816), the daughter of The Reverend James Anderson.⁴⁷

David Cook (1721-1786), sometimes Cooke, was born in Lancaster County and is buried in The Donegal Presbyterian Church Cemetery, Mount Joy.⁴⁸ Eventually, David Cook sold this land (purchased from John Stewart), to Jacob Heistandt Neff,⁴⁹ the middle and last name represent two prominent Mennonite families and surnames in Lancaster County and specifically the Marietta area. Jacob Heistandt Neff (1727-1798) was from Manor Township.⁵⁰

Marietta was founded by leaders and members of two prominent churches in Mount Joy. The Donegal Presbyterian Church (1732) and the Mount Joy Mennonite Church (1790). The Donegal Presbyterian Church was founded in 1727 with the church being built in 1732. The Reverend James Anderson (1678-1740), primary founder of Marietta, was the minister.⁵¹ The Mount Joy Mennonite Church was founded in 1790, with members meeting for worship in their homes, as was the custom of the time and remains the practice of the Old Order Amish. In 1812 a log meetinghouse on land donated by Peter Delebaugh Kraybill (1784-1869).⁵² The first minister of The Mount Joy Mennonite Church was The Reverend Jacob Hostetter Hershey (1747-1819).⁵³ Both The Reverend Jacob Hershey and Peter Kraybill are buried at the Kraybill Mennonite Cemetery in Mount Joy.⁵⁴

This points to the significance of the Presbyterians and Mennonites settling in Lancaster County after arriving in Philadelphia and Delaware, eventually realizing the economic significance of developing the land along the Susquehanna River associated with westward expansion of the nation. The early settlers settled in Mount Joy and not within the dangerous flood plain of the Susquehanna River. It also demonstrates the socio-economic bias of the settlers, believing poor lives were dispensable, poor transient workers living and working along the Susquehanna River, if they lost their lives and/or livelihood from flooding or from rowdy living, there are many histories of the community documenting drunken brawling in taverns, pubs, and hotels, the lives of these transient workers were not important, while the wealthy, benefiting from commerce along the Susquehanna River and Pennsylvania Canal, lived on higher safer ground in Mount Joy.

The Pennsylvania Canal & Marietta, Pennsylvania

The next time you are on the Northwest Lancaster County River Trail (2007) in Marietta, imagine the path of the Pennsylvania Canal (1824-1900) running parallel to the Susquehanna River. Take a moment to consider Nebuchadnezzar, the great ruler of Babylon in 500 B. C., remaking a canal which is believed to have first been

dug more than a thousand years earlier. The Nebuchadnezzar Royal Canal connected the Tigris and Euphrates Rivers.⁵⁵ Imagine China's Grand Canal, a UNESCO World Heritage Site, 1,000 miles long connecting Hangzhou and Tientsin, built in 500 B. C. Reflecting on how there are more than 26,000 miles of canal in all parts of the world, suddenly Marietta feels much older and more connected to the world than it seems today.⁵⁶

When you walk around Marietta and you come across the Duffy-Rottmund House (1863) on Market Street, formerly Irishtown, think about Colonel James Duffy (1818-1888) as a boy, growing up along the Susquehanna River, working on the log rafts as a draftsman until earning the rank of pilot and making a successful career in river transportation.⁵⁷ In 1846 he traveled through Europe making a study of canals and returning to Marietta he fulfilled his goal of making the Pennsylvania Canal through Marietta a major corridor for transporting coal. By 1848 Colonel Duffy established a line of boats for transporting coal from Pottsville to New York, in the interests of the Schuylkill Navigation Company.⁵⁸

When you think about Marietta and the Pennsylvania Canal remember it was based on a model established in 1639 when Mother Brook, the first canal was built connecting the Charles and Neponset Rivers in Dedham, Massachusetts.⁵⁹ From the beginning, Americans accepted waterways as the best method of traveling, or for moving goods from one place to another.⁶⁰ Construction on the Pennsylvania Canal started in 1824, it was a system of canals, dams, locks, tow paths, aqueducts, viaducts, tunnels, and bridges facilitating shipment of heavy bulk goods between Philadelphia (1682) and Pittsburgh (1758). The Pennsylvania Canal System developed in response to the growing markets in the Northwest Territory reached by the Ohio River through connecting the Susquehanna, Juniata, Conemaugh, Kiskiminetas, and Alleghany Rivers.⁶¹ When finished in 1834 the trip from Philadelphia to Pittsburgh, via the Main Line of Public Works (1826), could be made in three to five days. By 1830, more than 4,000 miles of canals in New York, Pennsylvania, Maryland, Virginia, Ohio, and Indiana were started or planned between 1825 and 1845.⁶²

The wonder of it all was the fact there were no American engineers at the time, and neither was there any excavating machinery. With no more than the ingenuity of local surveyors and such simple tools as shovels and wheelbarrows, these artificial rivers were cut through the most difficult countryside.⁶³ The equally amazing thing is how the canals are still functioning. Today we find modern railroads using ancient canal beds for their own track beds. Sometimes we drive through a high-walled section of farmland which was first a canal way before it became a highway. We might have thought a ditch running parallel to a railroad was for drainage. Actually it was once a canal; the present railway tracks are built on what was once the tow path. Or we might come upon some lofty bridge piers across a river where there is no roadway: we would hardly suspect they once held a wooden aqueduct and canal way, carrying it and the canal traffic high across the roaring river below.⁶⁴

The Pennsylvania Canal was not the only waterway serving the local economy of Marietta. In 1797 the Conewago Canal began carrying riverboats around the Conewago Falls on the Susquehanna River near York Haven.⁶⁵ The Susquehanna and Tidewater Canal, built between 1836-1840, connected Wrightsville (1811) with Havre de Grace, Maryland (1785). The Susquehanna and Tidewater Canal facilitated transportation of lumber,

coal, and raw materials from Marietta (1719) and Columbia (1724) to the Port of Baltimore (1729).⁶⁶ This is the reason why the economy in Marietta was built on lumber, coal, whiskey, and transportation.⁶⁷

The origins of the Pennsylvania Canal date back to 1690 when William Penn proposed building a canal connecting Philadelphia with the Susquehanna River. It took 102 years until in 1792, as an initiative of the Washington administration (1789-1797), the Union Canal, was completed in 1828. Running eighty-two miles, the Union Canal connected Middletown (1755) on the Susquehanna River to Reading (1748) on the Schuylkill River.⁶⁸ By 1834 the Main Line of Public Works, composed of interlocking canals, was transporting passengers and freight across 1,243 miles. Incrementally the canals system was integrated into and eventually replaced by the rail roads. In 1859, one hundred and sixty-nine years after William Penn's canal proposal, all canals owned by the Commonwealth of Pennsylvania were sold. The Pennsylvania Rail Road (1846) formed the Pennsylvania Canal Company and continued to use canals for freight transportation. The canal business, however, declined steadily in the last quarter of the nineteenth century, and most Pennsylvania canals no longer functioned after 1900.⁶⁹

The last canal boat to enter Marietta was in August of 1900. Captain Morris Nagle piloted a canal boat carrying coal from Nanticoke (1800) in Luzerne County. Captain Nagle docked the boat at Gay Street. The boat was dismantled and buried beneath the railroad bed when the Pennsylvania Rail Road was installed over the canal tow path.⁷⁰ In Marietta, along the Pennsylvania Canal boats were drawn by mules guided along the tow path parallel to Front Street.⁷¹ A double canal boat could handle up to 250 tons of freight with a single mule team on the tow path.⁷² In the winter the canal was drained to minimize damage from ice blocks and in the spring flooding (good for river transportation) washed out sections of the canal.⁷³ The last log raft to float down the Susquehanna River to Marietta landed on 12 April 1911.⁷⁴ Thus in the transition from the nineteenth to the twentieth centuries, transportation along the Susquehanna River and the Pennsylvania Canal were entirely replaced by the rail road network, changing the physical landscape of Marietta and the culture as well.

History of the Iron Industry in Marietta, Pennsylvania

The Chickies Historic District was the part of one of the most important concentrations of anthracite iron furnaces in the Eastern United States. The Iron Master Mansions are still standing while the ruins of these production facilities are now archaeological sites. The former community of this center for iron production remains on East Market Street as part of the Marietta National Historic District.

In 1768, Christian Hershy, Sr., the progenitor of a German Anabaptist farming family, built farmhouses, Pennsylvania bank barns, and grist mills prior to this land, the Chickies Historic District, being owned by Scots-Irish settlers John Gardiner, Nathaniel Litle, and John Ross through land grants, on property previously settled by French fur traders and Indigenous populations.

The Chickies Historic District and the towns of New Haven and Waterford played an important role in the lumber business along the Susquehanna River where rafts floated downstream were disassembled and the logs run through sawmills. In 1837, Swiss German Anabaptist Christian Haldeman built Oakland Mill, on former Christian Hershey land, and the story of generations of Haldemans transitioning from the lumber industry to iron producing demonstrates how the focus of the economy in Marietta evolved. Colonial Pennsylvania was found to have rich deposits of iron ore and limestone, and, about 1720, the

⁷⁴ *Ibid.* 16.

charcoal iron industry began to grow in eastern Pennsylvania. Centered largely in the river valleys, Pennsylvania was the leading producer of iron in Colonial America in the eighteenth century.

In 1828, Henry Haldeman purchased a saw mill, a chopping mill, and a hemp mill at the mouth of the Chikiswalungo (corruption of Chiquesalunga) Creek along the Susquehanna River in Marietta. In 1845, Henry Haldeman along with his son, physician, Dr. Edwin Haldeman (1814-1872), established E. Haldeman and Company and built an anthracite furnace on the west side of Chickies Rock and east of Chickiswalungo Creek. The internationally renowned scientist Samuel Haldeman (1812-1880) and his brother Edwin were put in charge of the new enterprise. Samuel was asked to name the iron works company and decided on the Indian name of the nearby creek, meaning "place of the crabs," hence Chikiswalungo Furnace. In 1858, when the name was abbreviated and corrupted to Chiques or Chickies, Samuel reluctantly approved changing the name to Chickies Furnace.

Leaving the commercial management of the business to his brothers Edwin (1814-1872), Paris (1831-1893), and Cyrus (1825-1892) Summerfield Haldeman, Samuel concerned himself with the scientific and technological aspects of iron smelting, becoming an authority on smelting iron. In 1848, Samuel authored two scholarly articles for the *American Journal of Science*, entitled "On the Construction of Furnaces to Smelt Iron with Anthracite" and "The Results of Smelting Iron with Anthracite." Samuel's scholarship demonstrated the benefits of anthracite coal furnaces over traditional charcoal furnaces for the iron smelting process.

In 1876, E. Haldeman and Company dissolved as a partnership and reorganized as a corporation named Chickies Iron Company by Paris Haldeman (1831-1893) and his nephew Horace Haldeman (1820-1883). In 1888, Chickies Iron Company became Haldeman, Grubb, and Company and this was the corporation which sold the properties in 1899, before demolishing the furnaces in 1911. Only the engine house of Chickies Furnace No. 2 survives today. In 1959, when Pennsylvania Route 441 was shifted west to a straight alignment between Columbia and Marietta, instead of bending east on what is now Old Chickies Hill Road, the bypass cut through the former Chickies Iron Company properties.

In 1833, along the Susquehanna River at the mouth of Chickies Creek, Samuel designed a Greek Revival style mansion, naming it Rock Retreat, and laid out the extensive gardens with native specimens of trees and shrubs. In 1911, when Haldeman, Grubb, and Company sold the property and demolished the furnaces, they raised Samuel's mansion Rock Retreat. In 2018, the East Donegal Rotary Club and Rivertownes PA USA erected a historical marker on the Northwest Lancaster County River Trail, south of Furnace Road, on the east side when traveling south, to commemorate the location of Samuel's Greek Revival mansion, Rock Retreat.

There were two other notable mansions in the Chickies Historic District which were razed. Dr. Edwin Haldeman's Victorian mansion used to stand near his brother Samuel Haldeman's Greek Revival mansion and the Stephen Eagle mansion, called Hillside, on the western side of Mount Pleasant/Ironmasters' Hill was razed in 1960. There is a schoolhouse on Mount Pleasant/Ironmasters' Hill which has been converted into a private residence.

The ensuing era of industrial development resulted locally in the construction of anthracite iron furnaces in a two-mile strip along the Susquehanna River between the towns of Marietta and Columbia. Around the furnaces the iron masters built self-sufficient communities consisting of buildings, such as charging and castings houses, stables, company stores, and workers cottages. The Iron Masters houses on Mount Pleasant, sometimes called Ironmaster's Hill, although they are called "mansions" locally, with one exception, they are really commodious residences with fewer than twelve rooms. In the 1920s, the Simons brothers, two physicians and a dentist, purchased three of the ironmasters' mansions.

Iron ore and lime deposits in the immediate vicinity and the construction of the Pennsylvania Canal along the Susquehanna River made the Chickies area an ideal location for anthracite hot blast furnaces. Six iron furnaces and one rolling mill used to define and dominate the Chickies Historic District. Chickies No. Furnace constructed in 1845 by Henry Haldeman with the pig iron being produced was sold under the brand name "Chickies" through agents in Philadelphia, New York, Baltimore, and Pittsburgh. Henry Clay Furnace was built by Peter Haldeman, Henry Haldeman's brother, in 1845, named for John Quincy Adams' Secretary of State, Henry Clay, Sr. In 1875, Clement Brooke Grubb purchased the furnace. The Grubb family was prominent in the

history of ironmaking in Pennsylvania. Grubb also owned the St. Charles furnace to the south and he re-named the Henry Clay furnace St. Charles No. 2. Donegal Furnace was built between 1847-1848 by James Meyers, George Eckert, and Daniel Stine. After 1872, Dr. Joseph F. Cottrell, son-in-law to James Meyers, operated the furnace which was closed in 1886. Marietta No. 1 And Marietta No. 2 Furnaces were built between 1847-1849 by Henry Musselman and his wife's uncle Dr. Peter Shoenberger known as the "Iron King." In 1854 when Shoenberger died, his son-in-law, attorney Henry Miller Watts, assumed Shoenberger's share of his ownership. Eagle Furnace (Chickies No. 2) was built in 1854 by Stephen F. Eagle and was purchased in 1870 by Edwin Haldeman and Company. Musselman Vesta Furnace was built in 1868 by Henry Musselman and Henry M. Watts. The products were sold under the brand name "Vesta." In 1917 the E. J. Lavino Company acquired the furnace and produced ferromanganese during the First World War and closed in 1930. Becker Rolling Mill was built in 1865 to produce muck bar, it was dismantled in 1894.

In the 1890s blast furnaces were using coke from western Pennsylvania and the railroads began to set prices, the Iron Masters of Chickies/Marietta could not compete with the powerful steel corporations in Pittsburgh and Bethlehem. In 1913, a significant portion of the Chickies iron producing properties were sold to John E. Baker Company for processing and selling lime and roasted dolomite, a limestone product used as both a flux and a lining for blast furnaces. In 1918 John E. Baker Company ceased operation, the Chickies area gradually reverted to its former rural and agricultural use. In 1977, the Chickies Rock County Park was created by Lancaster County.⁷⁵

*History of Marietta, Pennsylvania*⁷⁶

As early as 8,000 BC Paleo-Indian settlements, the Susquehannocks flourished along the Susquehanna River with agricultural production and operating complex trade routes expanding throughout the continent. Every river valley and every tributary of the Swatara, Conoy, Chickies, Conestoga, Pequea, and Octorara Creeks has considerable evidence of human habitation in Lancaster County, Pennsylvania prior to European contact.⁷⁷

In 1616 Etienne Brule (1592-1633) a French expert in the Algonquin language, who lived among the Susquehanna tribe in western New York, traveled down the Susquehanna River into the Chesapeake Bay. Along the way, Brule explored the tributaries of the Susquehanna River in Lancaster County and encountered the Susquehannock tribes living along the Susquehanna River.⁷⁸

In 1629 Etienne Brule partnered with the British fur trader Sir David Kirke (1597-1654) establishing trade relations between the Europeans and Susquehannock tribes. By 1680-1690 no Susquehannock villages existed in Lancaster or York Counties. There was a migration to New York to settle among the Iroquois and Seneca and a movement south to Maryland.⁷⁹

In 1681 British King Charles, II (1630-1685) granted a land charter to Quaker leader William Penn (1644-1718) to repay a debt the King owed to Admiral William Penn (1621-1670). King Charles named it Pennsylvania, meaning Penn's Woods: Penn and Sylvania from the Latin *silva* which translates forest or woods. There were no Susquehannocks living in this region by the time William Penn acquired the land from King Charles, II (1630-1685).⁸⁰

In 1701 William Penn (1644-1718) gave a patent of 3,000 acres of land along the Susquehanna River to George Beale (British). By 1703 Consumed by debt, William Penn (1644-1718) charged his land agent James

Logan (1674-1751) to send him in London “bear and buck skins for they [the creditors] bear an advance” and “urge the Pennsylvania assembly to establish a propriety monopoly in the Indian trade.”⁸¹

In 1708 James Logan invited the French Expert Indian language interpreter Peter Bezaillion (1661-1742) to establish a fur trading post where the Conoy Creek meets the Susquehanna River in Bainbridge, Pennsylvania north 7.5 miles north of Marietta. By 1719 Bezaillion invited the Piscataway tribe to move from Maryland to Conoy Town. They assumed the name Canoise or corn shellers and were called the Conoy Indians.⁸²

In 1717 Peter Logan did not only invite French and Indian fur traders to settle between the Conoy and Conewago Creeks along the Susquehanna River, he also sold land to the highest bidders among the Swiss-German (mostly Mennonite) Palatine farmers arriving in Pennsylvania in 1717. Simultaneously there was an influx of Ulster Scots or Scots-Irish settlers. William Penn’s sons John (1700-1746), Richard (1706-1771), and Thomas (1702-1775) inherited a great deal of debt when their father died in 1718. The Penn brothers became alienated from Quaker beliefs and did not subscribe to their father’s ideals for Pennsylvania.⁸³

In 1717 one year before his death, William Penn reserved 16,000 acres in Lancaster County for various tribes as a reserved hunting ground. This promise by William Penn would not be kept by his sons. According to Mennonite historian the Reverend John L. Ruth, Mennonite settlers in Lancaster County anxiously paid up to four times more than the price the Penn brothers were asking for acres. Meanwhile the Scots-Irish settlers encouraged to move here by James Logan started living on the land without title. The obvious defense of one’s claim to property was to construct buildings and begin to improve the land, even before it was legally acquired.⁸⁴

In 1719 Robert Wilkins, Scotch-Irish (Ulster Scots; Anglo-Irish Presbyterians), Indian Trader, acquired 300 acres along the Susquehanna River north of Chickies Creek. In 1719 George Stewart, Scotch-Irish, was sold a tract of land east of the Robert Wilkins tract. In 1727 Robert Wilkins sold the tract of Penn land to Scotch-Irish, The Reverend James Anderson, clergy at the Donegal Presbyterian Church (1732) in Mount Joy, in East Donegal Township. Son James Anderson operated the ferry and built the Accomac Inn.⁸⁵

In 1733 George Stewart’s son and daughter-in-law, John and Ann Stewart, inherited and sold the James Anderson tract to David Cook. This tract of land was given to his son David Cook whose son, David Cook, laid out the town of New Haven. Additional acres of the Stewart tract were given to David Cook’s son James.⁸⁶

Peter Bezaillion built Old Peter’s Road, as it is still known in parts of Lancaster County, to facilitate French and Indian fur trading linking Philadelphia to Bainbridge (1719). Bezaillion who, in partnership with the British, challenged France’s control over the territory between the Appalachian Mountains and the Mississippi River, a struggle which helped precipitate the French and Indian War. The French found the Algonquin tribes their allies, while the Iroquois sided with the British. Raids of British colonists occurred on both sides.⁸⁷

By 1743, The Piscataway tribes had moved away from Bainbridge, migrating north along the Susquehanna River settling in Shamokin. British victories in Quebec (1759) and Montreal (1760) led to France surrendering all of New France to the British. The British took over all French forts on the frontier and became the new authoritarian power for the tribes in these regions during The French and Indian War (1755-1763).⁸⁸

Between 1775-1783 Marietta played an important role in the American Revolution manufacturing iron and lumber, producing agricultural goods, distilling whiskey, and ferry transportation between Lancaster and York Counties over the Susquehanna River. The capitol of Continental Congress was in Lancaster City on 22 September 1777. Lancaster City was the capitol of Pennsylvania from 1799-1812. York City was the capitol of the Continental Congress from 1777-1778. The Articles of Confederation were drafted and adopted in York thus the establishing the first constituting and government for the United States of America. In 1789 Quaker leader

Samuel Wright renamed Wright's Ferry as Columbia and petitioned the new U. S. Congress to make this the location of the U. S. Capitol.⁸⁹

In 1804, the third generation of Anderson, grandson James Anderson, laid out the town of Waterford. By 1812, James Anderson and James Cook procured a charter from the Pennsylvania legislature and named their incorporated towns Marietta. The next year, 1813, Anderson's town Waterford and Cook's town New Haven were consolidated including a tract of land owned by John Myers east of Moravian Town and a tract of land owned by Benjamin Long north of Waterford.⁹⁰

In the same year, 1813 John Pedan, James Mehaffey, and Colonel James Duffy purchased 161 acres west of the Anderson tract and laid out Irishtown. The founders named each north-south street after U. S. naval heroes: Biddle, Jones, Decatur, Bainbridge, Morris, Hull, and Porter. The east-west streets named for American sea vessels: Essex, United States, Wasp, and Constitution. United States Street would become Market Street when all the towns were incorporated into the borough of Marietta.⁹¹

The next year, 1814, the Cassels sell the Neff tract to Jacob Grosh who laid out Moravian Town, known locally as Bungletown. By this time the major industry in Marietta was lumber. By 1814 there were nine lumber merchants in Marietta. Planing mills, lumberyards, carpentry shops, and allied businesses were the backbone of the local economy. Marietta was a waypoint for shipping lumber, bundled into rafts, downriver. In 1807 Henry Cassel established a lumber business on the corner of Third and Bank Streets. In 1848 Henry Cassel was joined by his son A. N. Cassel who in 1872 built a planing mill associated with the business. In 1850 B. F. Hiestand & Sons Planing Mill was established on the Susquehanna River below Chickes Rock with the lumber offices located on the corner of Bank and Second Streets. In 1945 the Hiestand lumber properties were deeded to the Paul W. Zimmerman Foundries Company manufacturing brass, bronze, and aluminum castings. In 1954 Zimmerman Foundries Company, was acquired by the Donegal Manufacturing Corporation, later called Donegal Steel Foundry Company which manufactured carbon, low alloy and stainless steel castings primarily for tanks for the U. S. Army during the Korean War (1950-1953).⁹²

During 1812-1814, The Columbia-Wrightsville covered bridge constructed over the Susquehanna River, at the time considered the longest covered bridge in the world. Greatly enhances the economy for Marietta. Between 1812-1815 the War of 1812 between the U. S. and Great Britain began over alleged British violations of American shipping rights, such as impressment, the forcing of American merchant sailors to serve on British ships. American forces unsuccessfully invaded Canada and the British retaliated by burning down Washington, D. C. Within weeks U. S. Forces repulsed sea and land invasions of the British at the Port of Baltimore, particularly Fort McHenry. The war ended with victory for the United States at the Battle of New Orleans. Two companies from Marietta marched to Maryland in defense of Baltimore. One of the companies was called the Marietta Grays commanded by Jacob Grosh.⁹³

In 1817 James Anderson built a road over Chickies Mountain, the Old Columbia Pike, linking Columbia, Pennsylvania, formerly Wright's Ferry, (1726) 3.6 miles south of Marietta. Anderson was preparing for the state legislature to build a bridge across the Susquehanna River connecting Marietta to York, Pennsylvania (1741). James Anderson operated a ferry across the Susquehanna River. Two miles north Mennonite Christian Winiker operated a ferry known as Vinegar Ferry.⁹⁴

The Economic Panic of 1819 was the first major peacetime financial crisis in the U. S. following the collapse of the economy in the transition from a colonial commercial status with Europe toward an independent economy. The downtown was driven by global market adjustments in the aftermath of the Napoleonic Wars, its

⁸⁹ Lloyd, Junie, YorkBlog, "How did they get across the wide Susquehanna when there were no bridges?"

⁹³ Ibid.

⁹⁴ Ibid.

severity was compounded by excessive speculation in public lands. The Pennsylvania legislature did not build a bridge between Marietta and York. James Anderson lost most of his money building the Columbia Pike.⁹⁵

Between 1826-1840 construction of the Pennsylvania Canal system to connect Philadelphia (1682) to Pittsburgh (1669) commenced. The Pennsylvania Rail Road (1846) eventually purchased the Pennsylvania Canal from the Commonwealth of Pennsylvania.⁹⁶

In 1855 Eagle Furnace, anthracite iron furnace, opened. The iron industry in Marietta was dominated by Henry Musselman, Henry Miller Watts of Carlisle, and his father-in-law Dr. Peter Shoenberger, of Pittsburgh. The local iron industry was managed by Watts' son Ethelbert Watts (1846–1919) a U. S. diplomat who played important roles in the Spanish American War, Russo Japanese War, & WW I. These iron plants produced pig iron, sold under the brand name Vesta, transported on the Pennsylvania Canal and later by the railroad. In 1917 the iron plants, known as the Susquehanna Iron Company, sold the furnaces to E. J. Lavino who produced ferromanganese, used for high grade steel, during WW I. The manganese ores came from all over the world & the ferromanganese product was shipped to Youngstown, Ohio, Coatesville, and Pittsburgh. The production of iron ceased in the 1920s and the furnace was dismantled between 1928 and 1934.⁹⁷

Between 1861-1865, during the American Civil War Marietta played a role in the Battle of Gettysburg 1-3 July 1863. Women from Marietta organized to prepare linen bandages and baked two wagonloads of bread dispatched to Gettysburg, Pennsylvania (1806) 45 miles west of Marietta. Marietta was protected from an invasion of Confederate troops because on 28 June 1863 Union forces burned the Columbia-Wrightsville covered bridge to prevent an advance of Confederate troops approaching from Wrightsville, York County. The Pennsylvania Rail Road used the bridge piers to support a rail bridge crossing the river from 1868-1896 when it was destroyed by the Cedar Keys Hurricane. In 1810 David Muma built a stone house which David Cassel (1774-1855) turned into a hotel in 1823 called the Perry House Hotel named for War of 1812 Commodore Oliver Hazard Perry (1785-1819). Perry House was a stronghold for Confederate sympathizers of Marietta where Copperheads and Unionists engaged in hostile political debates.⁹⁸

In the post-Civil War years, by 1876 The Marietta Holloware and Enameling Company was established, by Colonel James Duffy among others, producing hollow castings such as toilet bowls, lavatory basins, cast iron cookware, ink pots for stencils, glue pots, teakettles, and cookware including sauce pans, and skillets.⁹⁹

In 1882 Dr. H. M. Alexander used the methods of British physician and scientist, Edward Jenner (1749-1823) to create a vaccine for smallpox which he manufactured and sold commercially nationwide and globally. The work began in a chicken house adjacent to his office at 299 West Market Street. He purchased the H. McMullen Farm in the Irishtown neighborhood of Marietta located at Wasp and Biddle Streets and established the first commercial biological laboratory in the United States known as Dr. H. M. Alexander and Company and also as the Lancaster County Vaccine Farm.¹⁰⁰

By the time of the First World War, in 1916, the heirs of Dr. Alexander sold their shares of the company to the Gilliland Laboratories, Inc. During the Second World War, in 1943 Gilliland Laboratories was acquired by the American Home Products Corporation. The following year, in 1944, The American Home Products Corporation was incorporated into the Wyeth Laboratories, Inc. In 2005 Wyeth Laboratories was acquired by Britain's largest drugs maker, GlaxoSmithKline.

In 1889 Donegal Mutual Insurance Company, formerly Donegal and Conoy Mutual Fire Insurance Company, established on West Market Street in Marietta. During 1960-1961 Donegal built their national headquarters in Colonial Revival style campus on River Road Pennsylvania Route 441 (PA 441).¹⁰¹

In 1893 The Columbia and Donegal Electric Railway (C&D), later purchased by The Pennsylvania Traction Company which was acquired by the Conestoga Traction Company (1899) was chartered to build a trolley car line connecting the four miles between Columbia and Marietta and building the Chickies Rock Park. The wooden cars, painted bright blue with yellow trim, were purchased from J. G. Brill Car Company (1868-1954) Philadelphia and the electric lines were installed by Westinghouse Electric Company (1886) Pittsburgh. Trolley tickets were purchased at the Libhart Drug Store.¹⁰²

During 1917-1918 the United States declared war on Germany on 6 April 1917 more than two and a half years after the start of the First World War. Before entering the war, the U. S. remained neutral although it was an important supplier to Great Britain and the Allied Powers. The U. S. made its major contributions supplying raw material for the war effort. The U. S. military established the Marietta Holding and Reconsignment Point along the Susquehanna River. The primary mission was to receive and store Quartermaster, Ordnance, Medical, Engineer, and Signal Corps supplies until east coast ports were in a position to receive and ship materials overseas.¹⁰³

During the Second World War, in 1941 the U. S. military expanded the Marietta Holding and Reconsignment Point to accommodate supplying the Lend Lease Act. In March 1941 Lend Lease was enacted distributing food, oil, warships, warplanes, and weaponry. In December 1941, four days after the Japanese attack on Pearl Harbor and the United States, the U. S. Congress declared war against the Japanese Empire. Nazi Germany declared war against the U. S. in response to what was claimed to be a series of provocations by the United States when it was still officially neutral during the Second World War. The United States declared war on Germany.¹⁰⁴

During this time, 1942-1945 there was an expansion of the Marietta Holding and Reconsignment Point which is officially designated as the Marietta Transportation Corps Depot. The depot encompassed over eight million square feet, over 400 acres, and employed more than 800 civilians in addition to military personnel.¹⁰⁵

In 1947 Machinecraft, Inc. was established manufacturing automatic food shaping machines for mass production of hamburgers and French fries. The hydraulic valves for the first two air craft carriers built during the Second World War were designed and manufactured by Machinecraft. This technology allowed planes to be kept on an even keel during take-off and landing on the decks of the ships.¹⁰⁶

In 1952 Texas Eastern Transmission Corporation built a natural gas compressor two miles west of the Marietta Air Force Station. This compressor station moves natural gas destined for markets in Philadelphia and New York.¹⁰⁷

Between 1953-1955 the Transportation Material Command was established at the Marietta Transportation Corps Depot with the mission of supply control, cataloging, procurement, mobilization planning, and standardization and production engineering. In 1955 Marietta Transportation Corps Depot was transferred from the U. S. Army to the U. S. Air Force which created air station with the primary functions of receipt, storage, shipment, and disposal of Air Force material and equipment.¹⁰⁸

In 1955 the United States Aluminum Corporation of Pennsylvania USALCO is established. Rectangular twenty-five pound "ingots" smelted from scrap aluminum were produced to make castings for automotive automatic transmissions, pistons, aluminum fry pans, and products for national defense purposes.¹⁰⁹

In May 1957, New Jersey Shell Casting Corporation was organized and operated until 1961 as a shell molding foundry. The corporation existed under the laws of the State of New Jersey from 1957 to 1979 because Joe Nagy lived in New Jersey at the time of incorporation. In May 1957, the original one room block building on

South Decatur Street in Marietta, PA was rented from the U.S. Expansion Bolt Company. On December 9, 1965, New Jersey Shell Casting Corporation purchased the block building from the U.S. Expansion Bolt Company. The original size of the building was 2,700 square feet. Due to the growing needs of the business, the foundry has been expanded over the years and currently houses over 18,000 square feet under roof. In 1962, the business was converted to a non-ferrous brass, bronze and aluminum green sand-molding foundry and remains as such today¹¹⁰

In the 1970s, a large part of the Marietta Transportation Corps Depot became the Armstrong World Industries Ceiling Manufacturing Plant. Currently part of the Marietta Transportation Corps Depot is owned by the General Services Administration (GSA). The GSA portion of the site is used for the storage of a variety of ores including manganese, chrome, beryl, zinc, and lead in the form of ingots. Access to both portions of the site is restricted by perimeter fencing which has either locked gates or is guarded. The current property owners are: AWI (302.4 acres); GSA (67.5 acres); AAAA Enterprises, Inc. (39.9 acres); PADOT (23.27 acres); Richard C. Yunginger (36.40 acres); and Frederick W. Bushong et ux (9.6 acres).¹¹¹

This property is a superfund site which means the federal government, through the Environmental Protection Agency, has identified parties responsible for hazardous substances releases to the environment and has either compelled them to clean up the sites or it may undertake the cleanup on its own using the Superfund (a trust fund) and costs recovered from polluters by referring to the U. S. Department of Justice.¹¹² Sites managed under this program are referred to as “Superfund” sites established as the Comprehensive Environmental Response, Compensation, and Liability Act of 1980. The EPA identifies sites such as Marietta Transportation Corps Depot because they pose or had once posed a potential risk to human health and/or the environment due to contamination by one or more hazardous wastes. Marietta Transportation Corps Depot is currently registered as an Active superfund site by the EPA. However, it is not on the NPL (National Priorities List), which means the EPA does not consider it one of the nation's most hazardous waste sites.¹¹³

Established in 1970, Lawn Equipment Parts Company (LEPCO) is a family-owned and operated wholesale distributor of quality outdoor power equipment, parts, and accessories. Originally, LEPCO operated as an after-market parts distributor to independent lawn equipment dealers. Today, we handle nine major brands of power equipment and continue to supply aftermarket parts to over 1,300 dealers in the northeast region. Over the years, LEPCO has continued to grow, becoming one of the preferred distributors in the industry. Maintaining their reputation for outstanding customer service to its dealers continues to be their everyday focus. LEPCO's continued goal is to provide quality products and services to groups of independent dealers who, in turn, can provide a higher level of service and support to the end-users for all the brands represented. They sell exclusively to retail dealers in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania.¹¹⁴

In 1981, Rich Kushner opened Swedish Motors at 7 North Decatur Street, advertising that his employees had a unique knowledge of Swedish cars and foreign parts. His niche was more than enough to preoccupy his technicians, some of whom have been with Rich since their service doors opened. Today, Swedish Motors offers the same reliable auto service while also selling and restoring preowned and vintage vehicles.¹¹⁵

Jagtrux, Inc, a contract/common carrier for tractor trailer transportation was incorporated in 1982 by Jim Germak. In 1998 Jagtrux, Inc. purchased an abandoned locomotive repair shop in Marietta, originally built in 1942, and completely renovated the building. Eventually Jagtrux acquired surrounding property and expanded into a seventy-five-acre facility with a full-service shop, cross dock facilities, and secure trailer storage lots. Germak established a strong relationship with Armstrong World Industries becoming a Core Carrier for Armstrong's facilities in Marietta.¹¹⁶

B.N. Excavating is a second-generation family business, specializing in residential, commercial and agricultural excavating services. Bob Nafziger started the company in 1986, after working as an employee for an excavating company in the area for over 15 years. Bob started the company with a single backhoe, dump truck and track loader and steadily built relationships with area contractors to build the business. Today, B.N. Excavating has grown from a small, one-man operation to a trusted leader in the excavating industry throughout Lancaster County and beyond. Headquartered in Marietta, PA, the company is now home to an experienced team of full-time excavators and a diverse line of professional excavation equipment that can meet the excavating needs of small businesses, home owners and agricultural operations.¹¹⁷

R & T Mechanical, Inc. was founded in 1987. R & T Mechanical is a contracting company which provides services including plumbing, heating, air-conditioning, and other similar work. R & T is in the East Donegal Industrial Park along with several other companies and organizations including Hess Auctioneers, LLC, Jaxtrux, Inc, Vanguard Modular Building Systems., LLC, and Hiltz Propane.

Founded by Matt Hiltz, a mechanical engineer who has many years of experience in the propane industry, Hiltz Propane Systems is family-owned and operated and comprised of a dedicated crew of propane installation and repair professionals. Specializing in complete turnkey propane system design and installation services, Matt and his dedicated crew bring extensive experience to the table in the areas of LPG system design, engineering, plant connection, fitting and maintenance services.¹¹⁸

Established in 1998, Vanguard Modular Building Systems, LLC acquired Schiavi Leasing Corp., the predominate modular builder and regional supplier of modular classrooms in Maine since 1986, as a wholly owned subsidiary. Vanguard successfully expanded on Schiavi's already extensive modular construction capabilities to include distinctively engineered and designed multi-story permanent modular buildings, while retaining the requirements for temporary modular space of all sizes and configurations. Vanguard's experienced modular sales and construction management teams are in offices throughout the Atlantic and Gulf Coasts, enabling us to effectively serve more than 20 states. They provide construction management services and quality temporary and permanent modular buildings to the education, commercial, construction, healthcare, oil and gas, government, and religious markets.¹¹⁹

Hess Auctioneers, LLC began operations in June 2007 when John Hess (Hess Auction Group), Phil and Roger Garber (GFI Transport), and Jim Germak (Jagtrux), recognized a need for public truck, trailer and equipment auction and consignment auction in the Mid-Atlantic region. Since the company is conveniently located close to Harrisburg, Lancaster and York, the current site is convenient, secure and allows consignors to bring their equipment to the site in advance of the auctions, so buyers can preview the inventory.¹²⁰

Lancaster Recumbent opened in December 2014, and today, the shop has over 75 different types of recumbent cycles – and continues to grow. The shop moved to a new location at 103 West Market Street in March 2018 – a larger space (for more cycles) located a block and a half off the Northwest Lancaster County River Trail in Marietta, PA. Lancaster Recumbent offers rides for all of life's cycles, new and used semi-recumbent and recumbent cycles, offers personal customizations and adaptations to meet your specific needs. Lastly, they offer repairs and maintenance for practically anything with wheels – from recumbent to traditional upright cycles, from strollers to wheelchairs and walkers.¹²¹

In September 2017, after seven, sometimes controversial, years in the making, Pennsylvania's first large-scale commercial soybean-processing facility was opened at 1609 River Road in Conoy Township. Perdue Agribusiness's new \$60 Million soybean-processing plant has been long touted by Perdue as a boon to farmers from Lancaster County and the region, saving them transportation costs. The plant has received strong

endorsement from local agriculture and business groups.¹²² The state gave Perdue an \$8.75 million grant to build the plant in Pennsylvania. With processed water coming from the adjacent Lancaster County Waste-To-Energy Facility on the same campus, as well as steam, Perdue AgriBusiness said the plant is the most environmentally friendly soybean plant in the country. Perdue said the facility would have the lowest rate of hexane emissions of any soybean-processing plant in the United States. The plant will process soybeans and turn them into soymeal for livestock and dairy farms. The plant has 35 permanent employees. Perdue said its construction generated 150 jobs and the plant will spawn 500 jobs in crop production and transportation. Gov. Tom Wolf said, “This plant is a game changer for farmers in Pennsylvania, opening new lanes of supply, new markets, and new opportunities in the commonwealth’s agricultural economy.”¹²³

Texas Eastern Pipeline (TETCo) is a major natural gas pipeline which brings gas from the Gulf of Mexico coast in Texas and Louisiana up through Mississippi, Arkansas, Tennessee, Missouri, Kentucky, Illinois, Indiana, Ohio, and Pennsylvania to deliver gas in the New York City area. It is one of the largest pipeline systems in the United States. It is owned by Enbridge. Enbridge connects people to the energy they need to help fuel their quality of life. In the United States alone, more than two million miles of pipelines deliver petroleum and natural gas products. Every year, Enbridge invests in the latest technology and training to meet the high environmental and safety standards our neighbors expect, and to keep pipelines the safest, most efficient and most reliable way to move energy resources.¹²⁴ Marietta has its own Compressor Station off River Road and has a direct connection to this major national phenomenon.

Biographical Significance & Historic Purpose of Property

This home began its journey with Samuel Eby (1838-1904) and his wife Elizabeth (Collins) Eby (1841-1884). Mr. and Mrs. Eby signed for the home in 1871 and served many roles within Marietta and the surrounding communities. Most notably, Ms. Collins (later known as Mrs. Eby) was the daughter of Abraham Collins, owner and founder of the Farmers Bank of Elizabethtown¹²⁵. Mr. Collins worked with Mr. Eby to establish the bank, this is where Samuel and Elizabeth met.¹²⁶ The bank itself would go on to prosper as a private entity until it was made a public bank in the 1870s, which it was then known as the First National Bank of Elizabethtown; this would unfortunately lead to its closure.¹²⁷ When he was not working at the bank, Mr. Eby served as Justice of The Peace for West Donegal Township during 1864.¹²⁸ He also served with the Pennsylvania Militia during the September 1862 Emergency.¹²⁹

Walter Leese Is Dead at 74

Walter L. Leese, 74, Marietta R1, died at 11:30 p.m. Wednesday at Lancaster General Hospital of natural causes.

Leese retired in 1953 from Bethlehem Steel Co., Baltimore, Md., after 27 years of service as supervisor of the mason and stone departments. Later, he retired from the Camp Hill Correctional Institution, where he instructed stone masonry.

The husband of Mildred Gohn Leese, he was the son of the late John T. and Stella Lindemuth Leese. He was born in East Donegal Township.

Leese was a member of St. John's Episcopal Church, Marietta, and a 33rd degree Mason in a lodge in Baltimore, Md. Also, he listed membership in the East Donegal Boat Club.

Surviving in addition to his wife, at home, are a daughter, Minerva A., wife of Robert W. Eno Jr., Marietta R1, and two grandchildren.

The home was then passed on to Barbara Hauer (1827-1908). A notable figure in Marietta, Ms. Hauer owned the Hauer House, which is currently known as Shank's Tavern, and was married to Christopher Hauer.¹³⁰ Ms. Hauer signed the deed to the home in 1889. Born in Germany, Mrs. Hauer would go on to live in Marietta where she bought Hauer House from John Bielor in 1869.¹³¹ The home was then passed on from Mrs. Hauer to Mary E. (Presberry) Hopkins (1867-????) and Annie J. Fletcher (1853-1927) when they both signed the deed in 1903. Annie J. Fletcher was born March 17th, 1853, and would pass away from pneumonia on February 2nd, 1927.¹³² Mary E. Hopkins married to Joseph Hopkins on June 8th, 1887.¹³³

In 1938, Walter L. (1907-1981) and Bertha E. (1907-1973) Leese signed the deed from Mrs. Hopkins and Ms. Fletcher to become the fourth owners of the home. Walter was born April 21st, 1907. He worked for Bethlehem Steel Co. at their Baltimore, Maryland campus before retiring after 27 years of service. He would also go on to have a career at the Camp Hill Correctional Facility where he served as a masonry instructor. When he was not working, he was also a member of the Marietta Boat Club and a 33rd degree mason at the Baltimore, Maryland lodge. He was married to his wife Mildred G. Leese. In 1938, Scott B. (1896-????)¹³⁴ and Elanor Q. (1903-????) Fritz¹³⁵ signed their deed from Mr. and Mrs. Leese to become the fifth owners of the home.

The sixth pair to own the home were Lieutenant Angelo A. (1917-1974)¹³⁶ & Lieutenant Corable A. (1916-1977)¹³⁷ Albano. Mr. and Mrs. Albano signed the deed to the property in 1959 where they went on to continue their fulfilling lives in Marietta. Born on September 21st, 1917 to

Italian immigrants outside of Philadelphia, Pennsylvania, Mr. Albano would enlist for military service in WWII after graduating from the Philadelphia College of Pharmacy with a background in chemistry and pharmaceuticals.¹³⁸ He served the allied forces with the 17th Armored Engineer Battalion, 2nd Division.¹³⁹ Mrs. Albano, born in West Virginia in 1916, would also enlist in WWII as an Army Nurse.¹⁴⁰ Before her deployment, she completed training at Fort Knox and was then sent to Europe¹⁴¹. She was one of the first nurses to land in France with the allied invasion; she would also go on to serve as a Captain under General George S. Patton in the Third Army.¹⁴² Mr. and Mrs. Albano met and married during their time in the service. After they first met Christmas Eve in Morocco, North Africa, the two would marry on May 14th, 1944 at a church in England.¹⁴³ Their honeymoon would go on to be interrupted by the war. Once they returned home from their time in the service, Lieutenant Albano used his background from the Philadelphia College of Pharmacy to open and operate Albano's Drug Store in Marietta for seventeen years.¹⁴⁴ He would also serve as a part of the Donegal School Board in the role of president.¹⁴⁵

The seventh owners of the home, Richard K. (1928-1991)¹⁴⁶ and Corene M. Floyd signed their deed in 1964. Richard, born July 13th, 1928, was one of the only full-time locksmiths in the county and primarily served Marietta and surrounding communities.¹⁴⁷ He specialized in changing and replacing locks, opening stuck locks, and working with local

businesses to ensure their locks were in working order. Mr. Floyd also served with the United States Air Corps. He was regular Army and achieved the rank of Private. Mr. Floyd passed away on March 9th, 1991.¹⁴⁸

In 1972, a family would sign on to the lease and own the property. James M. Floyd (1943), Barbara A. Floyd, John W. Neff Loraine A. Neff and Mildred Shenk. John W. Neff, born December 13th, 1926, married his wife Loraine A. Neff in 1949.¹⁴⁹ Later, after the passing of Mrs. Neff, Mr. Neff would marry Irene S. Martin. Alongside Loraine, Mr. Neff was a farmer and charter member of the Neffsville Mennonite Church in Lancaster.¹⁵⁰ He was also a founder of Garden Spott Real Estate (1966) as well as

Town & Country Reality.¹⁵¹ He served a successful career as a realtor and was even awarded the Relator of The Year award in 1984. Outside of work, he was a member of the Rotary Club of West Lancaster and served on the board for Mount Joy Gift & Thrift.¹⁵² Loraine (Hess) Neff, born in 1930 to Raymond S. and Alverta E. Hess of Lititz, PA, worked for Georgia Pacific Corporation.¹⁵³ She would later go on to the Lancaster School District where she worked as an office secretary before her retirement in 1995. James H. III (1953) and Luann Ibaugh (1953) were the ninth owners of the home after signing the lease in 1975.

The tenth and most recent owners of the property are Brian T. (1949-2023)¹⁵⁴ and Pearl (Penny) H. Reiter (1953-Living). Mr. Reiter, born November 1st, 1949, was raised in Richland, PA.¹⁵⁵ He is a graduate of Eastern Lebanon County High School and would also go on to graduate from Newberry College, South Carolina.¹⁵⁶ Mr. Reiter also served in the Air Force from 1968-1972.¹⁵⁷ Once home from his service, he married his wife Pearl on July 16th, 1977.¹⁵⁸ He would also then go on to have two careers with the Commonwealth of Pennsylvania. Mr. Reiter worked for both the Department of Labor & Industry as well as the Department of Community & Economic Development.¹⁵⁹ Mr. Reiter was also a member of the Marietta American Legion, National Rifle Association (NRA), and the Train Collectors of America.¹⁶⁰ Mr. Reiter then passed away September 7th, 2023 and is resting at the Ft. Indiantown Gap Cemetery.¹⁶¹
